Sampling

Sampling Procedure

MICRODATA SOURCE: Ministry of Planning and Development Cooperation

SAMPLE DESIGN: Systematic sample of every tenth private dwelling. Drawn by the Minnesota Population Center from 100% microdata.

SAMPLE UNIT: Households

SAMPLE FRACTION: 10%

SAMPLE SIZE (person records): 1,944,278

Response Rate

COVERAGE: 100% of country, except 3 governorates from the Kurdish region: Dhok, Al-Sulaimaniya and Arbil

Weighting

Self-weighted. Expansion factor = 10.

Questionnaires

Overview

There are three enumeration forms: 1) basic form for dwelling and population data collection, 2) form for armed and security forces, and 3) form for rural areas

Data Collection

Data Collection Dates

Start	End	Cycle
1997-10-17	1997-10-17	N/A

Time Periods

Start	End	Cycle
1997-10-17	1997-10-17	N/A

Data Collection Mode

Face-to-face [f2f]

DATA COLLECTION NOTES

De facto and de jure, CENSUS DAY: October 17, 1997

SUPERVISION

Direct enumeration

File Description

Variable List

IRQ1997-H-H

Content	Household records
Cases	0
Variable(s)	60
Structure	Type: relational Keys: SERIAL(Household serial number)
Version	Version 6.4, IPUMS sample
Producer	Minnesota Population Center
Missing Data	

Variables

ID	Name	Label	Type	Format	Question
V1	RECTYPE	Record type	discrete	character	
V2	YEAR	Year	discrete	numeric	
V3	SAMPLE	IPUMS sample identifier	discrete	numeric	
V4	SERIAL	Household serial number	contin	numeric	
V5	PERSONS	Number of person records in the household	contin	numeric	
V6	SUBSAMP	Subsample number	discrete	numeric	
V7	GQ	Group quarters (collective dwelling) status	discrete	numeric	
V8	UNREL	Number of unrelated persons	discrete	numeric	
V9	URBAN	Urban-rural status	discrete	numeric	
V10	REGIONW	Continent and region of country	discrete	numeric	
V11	WATSUP	Water supply	discrete	numeric	
V12	SEWAGE	Sewage	discrete	numeric	
V13	PHONE	Telephone availability	discrete	numeric	
V14	ROOMS	Number of rooms	discrete	numeric	
V15	KITCHEN	Kitchen or cooking facilities	discrete	numeric	
V16	TOILET	Toilet	discrete	numeric	
V17	BATH	Bathing facilities	discrete	numeric	
V18	WALL	Wall or building material	discrete	numeric	
V19	HHTYPE	Household classification	discrete	numeric	
V20	NFAMS	Number of families in household	discrete	numeric	
V21	HEADLOC	Head's location in household	contin	numeric	
V22	HHDONATE	Donated household	discrete	numeric	
V23	GEOLEV1	1st subnational geographic level, world [consistent boundaries over time]	discrete	numeric	
V24	IQ1997A_0001	Dwelling number	contin	numeric	Dwelling number
V25	IQ1997A_0006	Number of persons in household	discrete	numeric	Number of persons in household

ID	Name	Label	Type	Format	Question
V26	IQ1997A_0016	Dwelling created by splitting apart a large dwelling or household	discrete	numeric	Dwelling created by splitting apart a large dwelling or household
V27	IQ1997A_0035	Urban-rural	discrete	numeric	1. Governorate ____ 2. Qadah ____ 3. Nahiya ____ 4. Environment [] 1 Urban [] 2 Rural
V28	IQ1997A_0042	Number of households in the residential unit	discrete	numeric	11. Number of households in the residential unit ____
V29	IQ1997A_0043	Number of bedrooms	discrete	numeric	12. Number of bedrooms ____ Mark with an [x] the correct answer.
V30	IQ1997A_0044	Ownership of the residential unit	discrete	numeric	13. Ownership of the residential unit Private sector [] 1 Possession [] 2 Rent [] 3 Other Government sector [] 4 Rent [] 5 Other
V31	IQ1997A_0045	Size of the rented residential unit	discrete	numeric	14. Size of the rented residential unit [] 1 All unit [] 2 One room [] 3 Two rooms [] 4 Three rooms and more
V32	IQ1997A_0046	Monthly rent (Iraqi Dinar)	contin	numeric	15. Monthly rent (I. D.) ____
V33	IQ1997A_0047	Type of residential unit	discrete	numeric	[The following instructions apply to questions 16 to 26] Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond. 16. Type of residential unit [] 1 House [] 2 Flat [] 3 Hut [] 4 Tent [] 5 Caravan [] 6 Other
V34	IQ1997A_0048	Wall construction material	discrete	numeric	[The following instructions apply to questions 16 to 26] Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond. 17. Wall construction material [] 1 Bricks [] 2 Stone [] 3 Blocks [] 4 Concrete blocks [] 5 Mud [] 6 Other
V35	IQ1997A_0049	Total number of rooms	discrete	numeric	[The following instructions apply to questions 16 to 26] Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond. 18. Total number of rooms in the residential unit ____
V36	IQ1997A_0050	Bathroom in the living unit	discrete	numeric	[The following instructions apply to questions 16 to 26] Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond. 19. Is there any bathroom in the occupied unit? [] 1 Yes [] 2 No 21. Are the bathroom and the water closet in the same place? [] 1 Yes [] 2 No
V37	IQ1997A_0051	Water closet	discrete	numeric	[The following instructions apply to questions 16 to 26] Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond. 20. Is there any water closet? [] 1 Yes [] 2 No 21. Are the bathroom and the water closet in the same place? [] 1 Yes [] 2 No
V38	IQ1997A_0052	Bathroom and water closet	discrete	numeric	[The following instructions apply to questions 16 to 26] Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond. 21. Are the bathroom and the water closet in the same place? [] 1 Yes [] 2 No
V39	IQ1997A_0053	Kitchen	discrete	numeric	[The following instructions apply to questions 16 to 26] Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond. 22. Is there any kitchen? [] 1 Yes [] 2 No
V40	IQ1997A_0054	Electricity	discrete	numeric	[The following instructions apply to questions 16 to 26] Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond. 23. Is the living unit equipped with electricity? [] 1 Yes [] 2 No

ID	Name	Label	Type	Format	Question
V41	IQ1997A_0055	Telephone	discrete	numeric	[The following instructions apply to questions 16 to 26] Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond. 24. Is the living unit equipped with a telephone? [] 1 Yes [] 2 No
V42	IQ1997A_0056	Source of drinking water	discrete	numeric	[The following instructions apply to questions 16 to 26] Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond. 25. Source of drinking water in the residential unit [] 1 Water nets [] 2 Public tap [] 3 Well [] 4 River or waterwheel [] 5 Other
V43	IQ1997A_0057	Waste water	discrete	numeric	[The following instructions apply to questions 16 to 26] Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond. 26. Drainage of waste water [] 1 Sewer system [] 2 Septic tank [] 3 Other
V44	IQ1997A_0058	Type of dwelling	discrete	numeric	27. To be filled by people living in establishments (hotels, clinics, prisons, etc.) [] 1 Hotel or rest house [] 2 Hostels (for students) [] 3 Social care unit [] 4 Medical establishment [] 5 Mosques or churches [] 6 Prisons, police stations [] 7 Residential units (living with non-relatives and hence not a part of the household) [] 8 Others Name of the establishment ____
V45	IQ1997A_0059	Strata	contin	numeric	Strata
V46	HHWT	Household weight	contin	numeric	
V47	GEOLEV2	2nd subnational geographic level, world [consistent boundaries over time]	discrete	numeric	
V48	GEO1_IQ	Iraq, Governorate 1997 [Level 1; consistent boundaries, GIS]	discrete	numeric	
V49	GEO1_IQ1997	Iraq, Governorate 1997 [Level 1, GIS]	discrete	numeric	
V50	GEO2_IQ	Iraq, District (Qadah) 1997 [Level 2; consistent boundaries, GIS]	discrete	numeric	
V51	GEO2_IQ1997	Iraq, District (Qadah) 1997 [Level 2, GIS]	discrete	numeric	
V52	NCOUPLES	Number of married couples in household	discrete	numeric	
V53	NMOTHERS	Number of mothers in household	discrete	numeric	
V54	NFATHERS	Number of fathers in household	discrete	numeric	
V55	COUNTRY	Country	discrete	numeric	
V56	ELECTRIC	Electricity	discrete	numeric	
V57	BEDROOMS	Number of bedrooms	discrete	numeric	
V58	OWNERSHIP	Ownership of dwelling [general version]	discrete	numeric	
V59	OWNERSHIPD	Ownership of dwelling [detailed version]	discrete	numeric	
V60	STRATA	Strata identifier	contin	numeric

V127	IQ1997A_0403	Sex	discrete	numeric	36. Sex [] 1 Male [] 2 Female
V128	IQ1997A_0405	Date of birth: month	discrete	numeric	37. Date of birth Day ____ Month ____ Year ____
V129	IQ1997A_0406	Year of birth	discrete	numeric	37. Date of birth Day ____ Month ____ Year ____
V130	IQ1997A_0407	Marital status	discrete	numeric	To be filled by people age 12 and older [Applies to questions 38-45] 38. Marital status [] 1 Never married [] 2 Married [] 3 Divorced [] 4 Widowed
V131	IQ1997A_0408	Year of first marriage	discrete	numeric	To be filled by people age 12 and older [Applies to questions 38-45] For married, divorced or widowed persons (both sexes) [Applies to questions 39-40] 39. Date of first marriage____
V132	IQ1997A_0409	Number of marriages	discrete	numeric	To be filled by people age 12 and older [Applies to questions 38-45] For married, divorced or widowed persons (both sexes) [Applies to questions 39-40] 40. Number of marriages____
V133	IQ1997A_0410	Number of wives	discrete	numeric	To be filled by people age 12 and older [Applies to questions 38-45] For married males only 41. Number of wives legally under his protection ____
V134	IQ1997A_0411	Duration of marriage	discrete	numeric	To be filled by people age 12 and older [Applies to questions 38-45] [Questions 42 to 45 are for married, divorced and widowed women] 42. Duration of marriage [] Less than one year [] One year and more Number of years ____
V135	IQ1997A_0412	Number of live-born male children	discrete	numeric	To be filled by people age 12 and older [Applies to questions 38-45] [Questions 42 to 45 are for married, divorced and widowed women] 43. Total number of live births during married life Male ____ Female ____
V136	IQ1997A_0413	Number of live-born female children	discrete	numeric	To be filled by people age 12 and older [Applies to questions 38-45] [Questions 42 to 45 are for married, divorced and widowed women] 43. Total number of live births during married life Male ____ Female ____

ID	Name	Label	Type	Format	Question
V137	IQ1997A_0414	Numbe of male children still alive	discrete	numeric	To be filled by people age 12 and older [Applies to questions 38-45] [Questions 42 to 45 are for married, divorced and widowed women] 44. Total number of living children Male ____ Female ____
V138	IQ1997A_0415	Number of female children still alive	discrete	numeric	To be filled by people age 12 and older [Applies to questions 38-45] [Questions 42 to 45 are for married, divorced and widowed women] 44. Total number of living children Male ____ Female ____
V139	IQ1997A_0416	Number of male live births in the past year	discrete	numeric	To be filled by people age 12 and older [Applies to questions 38-45] [Questions 42 to 45 are for married, divorced and widowed women] 45. Total number of live births during the period 10/17/1996-10/16/1997 Male ____ Female ____
V140	IQ1997A_0417	Number of female live births in the past year	discrete	numeric	To be filled by people age 12 and older [Applies to questions 38-45] [Questions 42 to 45 are for married, divorced and widowed women] 45. Total number of live births during the period 10/17/1996-10/16/1997 Male ____ Female ____
V141	IQ1997A_0418	Labor force status	discrete	numeric	For persons six years old and more [Applies to questions 46-52] 46. Labor force information [] 1 Working [] 2 Unemployed seeking work [] 3 Housewife with part-time work [] 4 Full-time student [] 5 Housewife [] 6 Pensioner [] 7 Have income but not working [] 8 Others
V142	IQ1997A_0453	Occupation	discrete	numeric	For persons six years old and more [Applies to questions 46-52] 47. Main occupation ____
V143	IQ1997A_0452	Industry	discrete	numeric	For persons six years old and more [Applies to questions 46-52] 48. Economic activity ____
V144	IQ1997A_0422	Status in employment	discrete	numeric	For persons six years old and more [Applies to questions 46-52] 49. Employment status [] 1 Employer [] 2 Own-account worker [] 3 Employee [] 4 Unpaid family worker
V145	IQ1997A_0423	Sector of employment	discrete	numeric	For persons six years old and more [Applies to questions 46-52] 50. Sector [] 1 Government [] 2 Mixed [] 3 Cooperative [] 4 Private [] 5 Arabic [] 6 Foreigner
V146	IQ1997A_0424	Work time	discrete	numeric	For persons six years old and more [Applies to questions 46-52] 51. Work time [] 1 Full-time [] 2 Part-time
V147	IQ1997A_0425	Source of livelihood	discrete	numeric	For persons six years old and more [Applies to questions 46-52] 52. Main source of living [] 1 From work [] 2 Retirement (all kinds of pension) [] 3 Scholarship [] 4 Assistance [] 5 Investment [] 6 By the help of others [] 7 By the help of social care
V148	IQ1997A_0426	Vital status of parents	discrete	numeric	53. Survival status of parents [] 1 The father is dead [] 2 The mother is dead [] 3 The parents are dead [] 4 The parents are alive
V149	IQ1997A_0427	Place of birth	discrete	numeric	54. Place of birth [] 1 In this governorate [] 2 In another governorate ____ [] 3 Abroad ____
V150	IQ1997A_0428	Period in current residential place	discrete	numeric	Residential status 55. Residential period in the recent place of residency [] 1 From birth [] 2 Less than a year [] 3 One year or more ____ Previous place of residence: 56. Governorate or abroad [] 1 In this governorate ____ [] 2 Abroad ____ 57. Administrative unit [] 1 Urban [] 2 Rural 58. Reason for changing the place of residency [] 1 Job [] 2 Transfer of posting [] 3 Appointment [] 4 War [] 5 Marriage or divorce or windowed [] 6 Study or finishing studies [] 7 Accompanying family [] 8 To get a better living [] 9 Other

ID	Name	Label	Type	Format	Question
V151	IQ1997A_0429	Years in current residential place	discrete	numeric	Residential status 55. Residential period in the recent place of residency [] 1 From birth [] 2 Less than a year [] 3 One year or more ___ Previous place of residence: 56. Governorate or abroad [] 1 In this governorate ___ [] 2 Abroad ___ 57. Administrative unit [] 1 Urban [] 2 Rural 58. Reason for changing the place of residency [] 1 Job [] 2 Transfer of posting [] 3 Appointment [] 4 War [] 5 Marriage or divorce or windowed [] 6 Study or finishing studies [] 7 Accompanying family [] 8 To get a better living [] 9 Other
V152	IQ1997A_0430	Previous governorate or country of residence	discrete	numeric	Residential status 55. Residential period in the recent place of residency [] 1 From birth [] 2 Less than a year [] 3 One year or more ___ Previous place of residence: 56. Governorate or abroad [] 1 In this governorate ___ [] 2 Abroad ___ 57. Administrative unit [] 1 Urban [] 2 Rural 58. Reason for changing the place of residency [] 1 Job [] 2 Transfer of posting [] 3 Appointment [] 4 War [] 5 Marriage or divorce or windowed [] 6 Study or finishing studies [] 7 Accompanying family [] 8 To get a better living [] 9 Other
V153	IQ1997A_0431	Urban-rural status of previous residence	discrete	numeric	Residential status 55. Residential period in the recent place of residency [] 1 From birth [] 2 Less than a year [] 3 One year or more ___ Previous place of residence: 56. Governorate or abroad [] 1 In this governorate ___ [] 2 Abroad ___ 57. Administrative unit [] 1 Urban [] 2 Rural 58. Reason for changing the place of residency [] 1 Job [] 2 Transfer of posting [] 3 Appointment [] 4 War [] 5 Marriage or divorce or windowed [] 6 Study or finishing studies [] 7 Accompanying family [] 8 To get a better living [] 9 Other
V154	IQ1997A_0433	Reason for changing place of residence	discrete	numeric	Residential status 55. Residential period in the recent place of residency [] 1 From birth [] 2 Less than a year [] 3 One year or more ___ Previous place of residence: 56. Governorate or abroad [] 1 In this governorate ___ [] 2 Abroad ___ 57. Administrative unit [] 1 Urban [] 2 Rural 58. Reason for changing the place of residency [] 1 Job [] 2 Transfer of posting [] 3 Appointment [] 4 War [] 5 Marriage or divorce or windowed [] 6 Study or finishing studies [] 7 Accompanying family [] 8 To get a better living [] 9 Other
V155	IQ1997A_0434	Residence before 1987 census	discrete	numeric	For those who were born before the 10/17/1987 [Applies to questions 59-61] Usual place of residence before the population census in 1987 59. Governorate or abroad [] 1 In this governorate [] 2 In other governorate ___ [] 3 Abroad ___ 60. Administrative unit [] 1 Urban [] 2 Rural 61. Nationality [] 1 Iraqi [] Arabic or foreigner (Give the nationality) ___
V156	IQ1997A_0435	Urban-rural status before 1987 census	discrete	numeric	For those who were born before the 10/17/1987 [Applies to questions 59-61] Usual place of residence before the population census in 1987 59. Governorate or abroad [] 1 In this governorate [] 2 In other governorate ___ [] 3 Abroad ___ 60. Administrative unit [] 1 Urban [] 2 Rural 61. Nationality [] 1 Iraqi [] Arabic or foreigner (Give the nationality) ___
V157	IQ1997A_0437	Nationality	discrete	numeric	For those who were born before the 10/17/1987 [Applies to questions 59-61] Usual place of residence before the population census in 1987 59. Governorate or abroad [] 1 In this governorate [] 2 In other governorate ___ [] 3 Abroad ___ 60. Administrative unit [] 1 Urban [] 2 Rural 61. Nationality [] 1 Iraqi [] Arabic or foreigner (Give the nationality) ___
V158	IQ1997A_0439	Education level studying	discrete	numeric	Questions 65-67 are for students continuing their studies 65. Educational level [] 1 Primary [] 2 Intermediate and secondary [] 3 Vocational [] 4 Institutes [] 5 College [] 6 High diploma [] 7 M.SC [] 8 Ph.D. [] 9 Highest degree acquired [] 10 Others

ID	Name	Label	Type	Format	Question
V159	IQ1997A_0440	Class or level studying	discrete	numeric	Questions 65-67 are for students continuing their studies 66. Class or level ____
V160	IQ1997A_0449	Educational level and grade studying	discrete	numeric	Questions 65-67 are for students continuing their studies 65. Educational level [] 1 Primary [] 2 Intermediate and secondary [] 3 Vocational [] 4 Institutes [] 5 College [] 6 High diploma [] 7 M.SC [] 8 Ph.D. [] 9 Highest degree acquired [] 10 Others 66. Class or level ____
V161	IQ1997A_0442	Literacy	discrete	numeric	The fields (68-70) are filled for those who are more than (10) years old, excluding the students who were born in 1987 or earlier. 68. Persons without certificate [] 1 Reading and writing [] 2 Reading only [] 3 Illiterate
V162	IQ1997A_0443	Highest certificate	discrete	numeric	The fields (68-70) are filled for those who are more than (10) years old, excluding the students who were born in 1987 or earlier. 69. For persons with certificates (mark with an [x] the highest certificate) [] 1 Primary [] 2 Intermediate [] 3 Secondary [] 4 Vocational [] 5 Diploma [] 6 B.A. or B.SCB [] 7 Higher diploma [] 8 M.A. or MSC [] 9 Ph.D. [] Higher degree acquired [] Others
V163	IQ1997A_0445	Kind of disability	discrete	numeric	The fields (71, 72) are filled for all handicapped persons without recognition to the sex or age. 71. Record type (RECTYPE)
File: IRQ1997-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: character	Invalid: 0
Width: 1	

Description

RECTYPE identifies the type of record for the case: household or person.

NOTE: RECTYPE is an alphabetic (character string) variable with a value of 'H' for household records and 'P' for person records. RECTYPE will not appear as a variable in the default rectangular extracts produced by the data extract system. It is only available in hierarchical extracts, to distinguish between the two record types.

Year (YEAR)
File: IRQ1997-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 4	
Decimals: 0	
Range: 1960-2011	

Description

YEAR gives the year in which the census was taken.

IPUMS sample identifier (SAMPLE)
File: IRQ1997-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 9	
Decimals: 0	
Range: 32197001-894201001	

Description

SAMPLE identifies the IPUMS sample from which the case is drawn. Each sample receives a unique 9-digit code. The code is structured as follows:

The first 3 digits are the ISO/UN codes used in COUNTRY

The next 4 digits are the year of the census/survey

The final 2 digits identify the sample within the year. For the last two digits, censuses or large census-like surveys have a value "0" (e.g, 01) in the second-to-last digit, household surveys have a value of "2" (e.g., 21), and employment surveys have a value of "4" (e.g., 41).

Household serial number (SERIAL)
File: IRQ1997-H-H

Household serial number (SERIAL)
File: IRQ1997-H-H

Overview	
Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 10	
Decimals: 0	

Description

SERIAL is an identifying number unique to each household in a given sample. All person records are assigned the same serial number as the household record that they follow. (Person records also have their own unique identifiers -- see PERNUM.) The combination of SAMPLE and SERIAL provides a unique identifier for every household in the IPUMS-International database; SAMPLE, SERIAL and PERNUM uniquely identify every person in the database.

SERIAL can be used to identify dwellings in some samples. In these samples, the first 7 digits of SERIAL provide the dwelling number common to all households that were sampled from the same structure. The last three digits give the sequence of the household within the dwelling. The following is a list of samples in which dwellings can be inferred:

Chile 1970, 1992, 2002
Colombia 1993, 2005
Costa Rica 1984, 2000
Cuba 2002
Dominican Republic 1981, 2002, 2010
Ecuador 1990, 2001
Germany 1971
Hungary 1980, 1990, 2001
Jamaica 1982, 1991, 2001
Malaysia 1970, 1991, 2000
Mexico 1995, 1990, 2000, 2005
Nigeria 2006
Panama 2000
Peru 1993, 2007
Portugal 1981, 1991, 2001
Spain 1991
Uruguay 2011
Venezuela 1990, 2001
Vietnam 1989

In all other samples, the last 3 digits are always zeroes.

SERIAL was constructed for IPUMS-International, and has no relation to the serial number in the original datasets.

Number of person records in the household (PERSONS)
File: IRQ1997-H-H

Overview	
Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	

Description

PERSONS indicates how many person records are included in the household (i.e., the number of person records associated with the household record in the sample). These person records will all have the same serial number (SERIAL) as the household record. The information contained in the household record will normally apply to all of these persons.

Subsample number (SUBSAMP)
File: IRQ1997-H-H

Subsample number (SUBSAMP)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

SUBSAMP allocates each case to one of 100 subsample replicates, randomly numbered from 0 to 99. Each subsample is nationally representative and preserves any stratification of the sample from which it is drawn. Users who need a representative subset of a sample can use SUBSAMP to select their cases. For example, to randomly extract 10% of the cases from a sample, select any 10 of the 100 subsamples.

Group quarters (collective dwelling) status (GQ)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

GQ identifies households as vacant dwellings, group quarters, or private households. Group quarters -- collective dwellings -- are generally institutions and other group living arrangements such as rooming houses and boarding schools.

Institutions often retain persons under formal supervision or custody, such as correctional institutions, military barracks, asylums, or nursing homes. Educational and religious group dwellings (e.g., boarding schools, convents, monasteries, etc.) are also included in the institutional classification.

Group quarter designations are often useful for understanding the universe of households that answered questions about household characteristics. Censuses will often exclude group quarters from such questions.

Number of unrelated persons (UNREL)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

UNREL indicates the number of persons in the household who are unrelated to the head.

Urban-rural status (URBAN)
File: IRQ1997-H-H

Overview

Urban-rural status (URBAN)
File: IRQ1997-H-H

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

URBAN indicates whether the household was located in a place designated as urban or as rural.

Continent and region of country (REGIONW)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 11-54

Valid cases: 0
Invalid: 0

Description

REGIONW identifies the continent and region of each country.

Water supply (WATSUP)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

WATSUP describes the physical means by which the housing unit receives its water. The primary distinction is whether or not the household had piped (running) water.

Sewage (SEWAGE)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

SEWAGE indicates whether the household has access to a sewage system or septic tank.

Telephone availability (PHONE)
File: IRQ1997-H-H

Overview

Telephone availability (PHONE)
File: IRQ1997-H-H

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

PHONE indicates the availability of a telephone in the dwelling.

Number of rooms (ROOMS)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

ROOMS indicates the number of rooms occupied by the housing unit.

Kitchen or cooking facilities (KITCHEN)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

KITCHEN indicates whether the household had a kitchen, cooking facilities, or room dedicated to food preparation.

Toilet (TOILET)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

TOILET indicates whether the household had access to a toilet and, in most cases, whether it was a flush toilet or other type of installation.

Bathing facilities (BATH)
File: IRQ1997-H-H

Overview

Bathing facilities (BATH)
File: IRQ1997-H-H

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

BATH indicates whether the household had access to bathing facilities and, in most cases, whether it had exclusive access.

Wall or building material (WALL)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

This variable indicates the primary material used in the construction of the dwelling, particularly the dwelling's exterior walls.

Household classification (HHTYPE)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

HHTYPE is a constructed variable that describes the composition of households.
HHTYPE is constructed from information in RELATE (relationship to head), from the constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father), and from information on group quarters status, GQ.

Number of families in household (NFAMS)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

NFAMS is a constructed variable that indicates the number of families within each household. A "family" is any group of persons related by blood, adoption, or marriage. An unrelated individual within the household is considered a separate family. Thus, a household consisting of a widow and her servant contains two families; a household consisting of a large, multiple-generation extended family with no lodgers or servants would count as a single family.

NFAMS is constructed from information in RELATE (relationship to head) and from the constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father). See those variable descriptions for more detail.

Head's location in household (HEADLOC)
File: IRQ1997-H-H

Overview	
Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	

Description

HEADLOC gives the person number of the head of household in samples in which persons are organized into households.

Donated household (HHDONATE)
File: IRQ1997-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-1	

Description

HHDONATE identifies households that were donated during the IPUMS data editing process.

1st subnational geographic level, world [consistent boundaries over time] (GEOLEV1)
File: IRQ1997-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 6	
Decimals: 0	
Range: 32002-894010	

Description

GEOLEV1 indicates the major administrative unit in which the household was enumerated. The variable incorporates the geographies for every country, to enable cross-national geographic analysis over time. First administrative units in GEOLEV1 have been spatiotemporally harmonized to provide spatially consistent boundaries across samples in each country.

Dwelling number (IQ1997A_0001)

Urban-rural (IQ1997A_0035)
File: IRQ1997-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-9	

Description

This variable indicates whether the dwelling was located in an urban or rural area.

Universe

All households

Urban-rural (IQ1997A_0035)
File: IRQ1997-H-H

Literal question

1. Governorate ___

2. Qadah ___

3. Nahiya ___

4. Environment

[] 1 Urban
[] 2 Rural

Interviewer instructions

4. The Environment:
Indicated by (x) in the correct square, according to the results of listing and mapping process, if the area is within the boundaries of the city of Baghdad or within the boundaries of municipalities. The sin is put in the square opposite to the word (urban) but if the area is outside the boundaries of the city of Baghdad or the boundaries of municipalities. The sign is put in the square opposite to the word (rural).

Number of households in the residential unit (IQ1997A_0042)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-15

Valid cases: 0
Invalid: 0

Description

This variable indicates the number of households in the residential unit.

Universe

Private households

Literal question

11. Number of households in the residential unit ___

Interviewer instructions

11. Number of households in the residential unit:
The numerator has to make sure of number of households in the dwelling according to the household definition. The numerator has to record in the special space indicated the number of the households that dwell in the residential unit. If there is one household in the residential unit it is recorded in the special space No.(1) and if there are two households is recorded No.(2) and so on.

Number of bedrooms (IQ1997A_0043)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

This variable indicates the number of bedrooms in the dwelling -- rooms used for sleeping.

Universe

Private households

Number of bedrooms (IQ1997A_0043)
File: IRQ1997-H-H

Literal question

12. Number of bedrooms ___

Mark with an [x] the correct answer.

Interviewer instructions

12. Number of bedrooms:
This field concerns only houses, flats, mud houses, and caravans. The data concerning this field is not collected from others. The dependable definition for the bedroom is the room which is used for sleeping even it is used basically as a sitting room, dining room, and kitchen or for any other purpose. Recorded in this field the number of rooms used for sleeping. If the household uses two bedrooms, number (2) is put in the space indicated for that and if the household uses (3) bedrooms, number (3) is put in the space indicated for that and so on.

Ownership of the residential unit (IQ1997A_0044)
File: IRQ1997-H-H

Overview

Type: Discrete

[] 1 Possession
[] 2 Rent
[] 3 Other

Government sector

[] 4 Rent
[] 5 Other

Interviewer instructions

Ownership of the residential unit (IQ1997A_0044)
File: IRQ1997-H-H

13. Ownership of the residential unit:
This field concerns the residential units constructed with bricks, stone, blocks, mud or concrete blocks only. The ownership of the residential unit is limited to constructed unit and not the land.
If the ownership of the residential unit depends on the household the sign is put in the square (1) opposite to the word (possession).
If the residential unit is rented from the private sector the sign is put in square (2) opposite to the word (rent) and so on. Some residential units are owned by a factory or a private establishment (private sector) and it is rented by its employees or others, the sign is put in square (2) opposite to the word (rent).
As for the square that carries number (3) which is opposite to the word (others) is indicated by the sign (x) in the cases that the residential unit of the household is without monthly rent and also for the residential units that belonged to the private sector, for example a household that dwells in a residential unit that is owned by the father of the head of the household or one of his relatives and the household doesn't pay any monthly rent.
[p.7]
If the residential unit is rented from the governmental sector (general or cooperative) the sign is put in the square (4) opposite to the word (rent). Some of the residential units owned by a factory or a governmental establishment (governmental sector) and it is rented to its employees or other the sign is put in the square (4) opposite to the word (rent) also.
As for the square (5) opposite to the word (others) is indicated by the sign (x) in cases that the dwelling of the household is without monthly rent in the residential units owned by the governmental sector, for example a household that dwells in a residential unit owned by a factory, governmental establishment or pious foundation and doesn't pay any rent amount.

Size of the rented residential unit (IQ1997A_0045)
File: IRQ1997-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-9	

Description

This variable indicates the number of rooms rented in the residential unit.

Universe

Rented households

Literal question

14. Size of the rented residential unit

[] 1 All unit
[] 2 One room
[] 3 Two rooms
[] 4 Three rooms and more

Interviewer instructions

14. The volume of the rented residential unit:
Indicated by the sign (x) in square (1) in case the household rented the whole residential unit and for square (2) if the household rented one room from the residential unit and so on.

Monthly rent (Iraqi Dinar) (IQ1997A_0046)
File: IRQ1997-H-H

Overview	
Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 6	
Decimals: 0	

Description

Monthly rent (Iraqi Dinar) (IQ1997A_0046)
File: IRQ1997-H-H

This variable indicates the monthly rent in Iraqi Dinar.

Universe

Rented households

Literal question

15. Monthly rent (I. D.) ___

Interviewer instructions

15. Monthly rent:
Monthly rent is recorded by Iraqi Dinar (ID) in the indicated space, if the residential unit is rented either by the governmental or private sector.

Type of residential unit (IQ1997A_0047)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 1

File: IRQ1997-H-H

Overview

Wall construction material (IQ1997A_0048)
File: IRQ1997-H-H

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates the construction material used for the walls of the residential unit.

Universe

Private dwellings

Literal question

[The following instructions apply to questions 16 to 26]
Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond.

17. Wall construction material

[] 1 Bricks
[] 2 Stone
[] 3 Blocks
[] 4 Concrete blocks
[] 5 Mud
[] 6 Other

Interviewer instructions

17. Kind of material used in constructing the walls of the residential unit:
Indicated by the sign (x) in square opposite to the kind of material used in constructing the walls of the residential unit. If the walls of this unit constructed by bricks a sign is put in the square (1) opposite to the word (bricks) but if the walls are constructed with concrete blocks from ready construction, the sign is put in the square (4) opposite to the phrase (concrete blocks from ready construction). If the walls of the residential unit constructed with more than one material, for example bricks and stone the main material used in constructing the walls of the residential unit is taken for fixing the material used in constructing the walls of the residential unit, the sign (x) is put in the correct square. If the household resides in a residential unit its walls constructed with material not mentioned in the questionnaire the sign (x) is put in the square (6) opposite to the word (others) and so on but if the kind residential unit (in field 16) a tent or a hair house (square 4) the material for construction is not indicated in this field.
Note: Field (18) is limited only on the residential units constructed with bricks or stone or block or concrete blocks from ready construction or mud and the data is not collected from huts, tents, hair houses and the like.

Total number of rooms (IQ1997A_0049)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric

Range: 0-99

Valid cases: 0
Invalid: 0

Description

This variable indicates the total number of room in the residential unit.

Universe

Private dwellings

Literal question

Total number of rooms (IQ1997A_0049)
File: IRQ1997-H-H

[The following instructions apply to questions 16 to 26]
Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond.

18. Total number of rooms in the residential unit ____

Interviewer instructions

18. The total number of the rooms in the residential unit:
The total number of the rooms in the residential unit is recorded in number and it depends on specifying the room to the definition of a room. If the residential unit has five rooms, number (5) is put in the space indicated for that. The total number of the rooms includes bedrooms, dinning rooms, sitting rooms, study, kitchen and the rooms used for professional purposes or hand work and others. The corridors (hallways), bathrooms and water closets are not considered rooms.

Bathroom in the living unit (IQ1997A_0050)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates whether there is a bathroom in the living unit. Bathroom in this context is separate from water closet (toilet), which was the subject of a separate question.

Universe

Private dwellings

Literal question

[The following instructions apply to questions 16 to 26]
Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond.

19. Is there any bathroom in the occupied unit?

[] 1 Yes
[] 2 No

21. Are the bathroom and the water closet in the same place?

[] 1 Yes
[] 2 No

Interviewer instructions

Is in the residential unit:

19. Independent bathroom:
If there is an independent bathroom in the residential unit the sign (x) is put in the square to the word (yes) and if there is no independent bathroom the sign is put in the square opposite to the word (no).

Water closet (IQ1997A_0051)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates whether there is water closet in the residential unit. A separate question asked about the presence of a bathroom.

Universe

Private dwellings

Literal question

[The following instructions apply to questions 16 to 26]
Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond.

20. Is there any water closet?

[] 1 Yes
[] 2 No

21. Are the bathroom and the water closet in the same place?

[] 1 Yes
[] 2 No

Interviewer instructions

Is in the residential unit:

20. Independent water closets:
If there are independent water closets in the residential unit the sign (x) is put in the square to the word (yes) and if there are no independent the water closets the sign is put in the square opposite to the word (no).

21. Bathroom and water closets in the same place:
If there is a bathroom and water closets in the same place in the residential unit the sign (x) is put in the square to the word (yes) and if there is no bathroom and water closets in the same place the sign is put in the square opposite to the word (no).

Bathroom and water closet (IQ1997A_0052)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates whether the residential unit has both bathroom and water closet in the same place.

Bathroom and water closet (IQ1997A_0052)
File: IRQ1997-H-H

Universe

Private dwellings

Literal question

[The following instructions apply to questions 16 to 26]
Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond.

21. Are the bathroom and the water closet in the same place?

[] 1 Yes
[] 2 No

Interviewer instructions

Is in the residential unit:

21. Bathroom and water closets in the same place:
If there is a bathroom and water closets in the same place in the residential unit the sign (x) is put in the square to the word (yes) and if there is no bathroom and water closets in the same place the sign is put in the square opposite to the word (no).

Kitchen (IQ1997A_0053)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates whether the residential unit has a kitchen.

Universe

Private dwellings

Literal question

[The following instructions apply to questions 16 to 26]
Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond.

22. Is there any kitchen?

[] 1 Yes
[] 2 No

Interviewer instructions

Is in the residential unit:

22. Kitchen:
If there is a kitchen in the residential unit it is indicated by the sign (x) is put in the square to the word (yes) and if there is no kitchen the sign is put in the square opposite to the word (no).

Electricity (IQ1997A_0054)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates whether the living unit has electricity.

Universe

Private dwellings

Literal question

[The following instructions apply to questions 16 to 26]
Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond.

23. Is the living unit equipped with electricity?

[] 1 Yes
[] 2 No

Interviewer instructions

23. Is the residential unit provided with electricity:
Indicated by the sign (x) in the correct square, if the residential unit provided with electricity the sign is put in the square opposite to the word (yes) but if it is not provided with electricity the sign is put in the square opposite to the word (no).

Telephone (IQ1997A_0055)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates whether the living unit has telephone.

Universe

Private dwellings

Literal question

[The following instructions apply to questions 16 to 26]
Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond.

24. Is the living unit equipped with a telephone?

[] 1 Yes
[] 2 No

Interviewer instructions

24. Is the residential unit provided with telephone:
Indicated by the sign (x) in the square opposite to the word (yes), if there is a telephone in the residential unit but if it is not provided with a telephone the sign is put in the square opposite to the word (no).

Source of drinking water (IQ1997A_0056)
File: IRQ1997-H-H

Overview

Type: Discrete

Format: numeric

Width: 1

Decimals: 0

Range: 1-9

Valid cases: 0

Invalid: 0

Description

This variable indicates the source of drinking water in the residential unit.

Universe

Private dwellings

Literal question

[The following instructions apply to questions 16 to 26]

Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond.

25. Source of drinking water in the residential unit

[] 1 Water nets

[] 2 Public tap

[] 3 Well

[] 4 River or waterwheel

[] 5 Other

Interviewer instructions

25. The source of drinking water in the residential unit:

Indicated by the sign (x) in the correct square, for example if the residential unit provided with drinking water from public water net or governmental water net the sign is put in the square (1) opposite to the phrase (public water net or governmental water net). If the residential unit is provided with drinking water from a public tap the sign is put in the square (2) opposite to the phrase (public tap). The public tap means (the tap of the governmental water net that is available in a public place in the district or village that provides a number of residential units). If the residential unit is provided with a drinking water from a well the sign is put in the square number (3) opposite to the word (well). If the residential unit is provided with a drinking water from a river or a stream the sign is put in the square number (4) and if the residential unit is provided with a drinking water from other sources in the questionnaire such as tankers and springs the sign is put in the square number (5) opposite to the word (others).

Waste water (IQ1997A_0057)
File: IRQ1997-H-H

Overview

Type: Discrete

Format: numeric

Width: 1

Decimals: 0

Range: 1-9

Valid cases: 0

Invalid: 0

Description

This variable indicates how the dwelling's waste water is disposed of.

Universe

Private dwellings

Literal question

Waste water (IQ1997A_0057)
File: IRQ1997-H-H

[The following instructions apply to questions 16 to 26]
Fill for each household living alone in the residential unit, if occupied by more than one household, only one of the households should respond.

26. Drainage of waste water

[] 1 Sewer system
[] 2 Septic tank
[] 3 Other

Interviewer instructions

26. Sewerage of the residential unit:
Indicated by the sign (x) in the square opposite to the way of draining the dirty water from the residential unit. If the residential unit connected with the public drainage (it means the public new drainage net) by a drainpipe for draining the dirty water. The sign (x) is put in the square opposite to the word public drainage but if there is a tank for gathering dirty water in the residential unit and it is cleaned continuously, the sign is put in the square opposite to the word (septic tank). If it is drained without the previous ways the sign is put in the square opposite to the word (others).

Type of dwelling (IQ1997A_0058)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

This variable indicates the type of non-private dwelling.

Universe

All households

Literal question

27. To be filled by people living in establishments (hotels, clinics, prisons, etc.)

[] 1 Hotel or rest house
[] 2 Hostels (for students)
[] 3 Social care unit
[] 4 Medical establishment
[] 5 Mosques or churches
[] 6 Prisons, police stations
[] 7 Residential units (living with non-relatives and hence not a part of the household)
[] 8 Others

Name of the establishment ____

Interviewer instructions

Type of dwelling (IQ1997A_0058)
File: IRQ1997-H-H

27. Persons dwell in hotels, boarding departments, health establishments, prisons, monasteries and the like:
This field is filled by persons and households dwell in hotels, boarding departments, health establishments, prisons, monasteries and the residential units which are occupied by persons and the like. If the person dwells in a hotel or rest house or tourist centre indicated by the sign (x) in the square opposite to the phrase(hotel or rest house or tourist centre) besides writing the name of the hotel or rest house or tourist centre in full in the space indicated for that and this square includes scout camps too.
If the person dwells in a boarding section the sign is put in the square opposite to the phrase (boarding section) besides writing the name of the boarding section in full in the space indicated for that.
If the person dwells in one of the social care units that includes(juveniles and girls care, aged and crippled care, handicapped care) the sign is put in the square (3) besides writing the name of the care unit in the space indicated for that.
If the person dwells in one of the health establishments that include (health rehabilitation centre, protective medical centers, unbalance centers protective cure institutes, allergy health centers, professional health protection, laboratory, dental clinic, city health protection, main health center, branch health centers, hospital, traveling health centers, school health, etc.) the sign is put in the square (4) besides writing the name of the health establishment in the special space for that but if the person dwells in a monasteries (mosques or churches) the sign is put in square (5) with mentioning the name of the mosque or the church in the special space for that.
If the person dwells in one of the reformation units that includes adults reformation departments (prisons),youth adults schools, youth rehabilitation schools or any police stations the sign is put in the square (6) opposite to the phrase (adults reformation departments (prisons),youth adults schools, youth rehabilitation schools or any police stations) besides writing the name of the reformation units in the special space indicated for that but if he dwells in others the sign (x) in put in the square (8) opposite to the word (others) with mentioning its type and writing its name in the special space for that, for example municipal sections, pumping stations, the enumerator has to organize a questionnaire and its annexes for those persons and if a household takes one of these places as a permanent residential unit and it has no other place for dwelling, the sign (x) is indicated in the correct square and an independent questioner is organized for this household. In a state of occupying one of the residential units (house, flats, etc.) by a group of persons who are not relatives and they do not form a household (for example a group of students or a group of Arab or Foreigners dwell in a residential unit the sign is put in the square (7) opposite t the phrase residential unit occupied by persons.

Strata (IQ1997A_0059)
File: IRQ1997-H-H

Overview

Type: Continuous
Format: numeric
Width: 5
Decimals: 0

Valid cases: 0
Invalid: 0

Description

This variable is the strata identifier for the sample. Strata is a constructed variable that is captures implicit geographic stratification resulting from the sample design. It is created by assigning a unique identifier to groups of between 10 and 19 adjacent households. Additional documentation is available on the Variance Estimation page.

Universe

All households

Literal question

Strata

Household weight (HHWT)
File: IRQ1997-H-H

Overview

Type: Continuous
Format: numeric
Width: 8
Decimals: 2

Valid cases: 0
Invalid: 0

Description

Household weight (HHWT)
File: IRQ1997-H-H

HHWT indicates the number of households in the population represented by the household in the sample.

For the samples that are truly weighted (see the comparability discussion), HHWT must be used to yield accurate household-level statistics.

NOTE: HHWT has 2 implied decimal places. That is, the last two digits of the eight-digit variable are decimal digits, but there is no actual decimal in the data.

2nd subnational geographic level, world [consistent boundaries over time] (GEOLEV2)
File: IRQ1997-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 9	
Decimals: 0	
Range: 32002001-888888888	

Description

GEOLEV2 indicates the second major administrative unit in which the household was enumerated. The variable incorporates the geographies for every country, to enable cross-national geographic analysis over time. Second administrative units in GEOLEV2 have been spatio-temporally harmonized to provide spatially consistent boundaries across samples in each country.

Iraq, Governorate 1997 [Level 1; consistent boundaries, GIS] (GEO1_IQ)
File: IRQ1997-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 6	
Decimals: 0	
Range: 368011-368035	

Description

GEO1_IQ identifies the household's province or governorate within Iraq in 1997. Provinces or governorates are the first level administrative units of the country. A GIS map (in shapefile format), corresponding to GEO1_IQ can be downloaded from the GIS Boundary files page in the IPUMS International web site.

The full set of geography variables for Iraq can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found here.

Iraq, Governorate 1997 [Level 1, GIS] (GEO1_IQ1997)
File: IRQ1997-H-H

Overview	

Iraq, Governorate 1997 [Level 1, GIS] (GEO1_IQ1997)
File: IRQ1997-H-H

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 11-35

Valid cases: 0
Invalid: 0

Description

GEO1_IQ1997 identifies the household's province or governorate within Iraq in 1997. Provinces or governorates are the first level administrative units of the country. A GIS map (in shapefile format), corresponding to GEO1_IQ1997 can be downloaded from the GIS Boundary files page in the IPUMS International web site.

The full set of geography variables for Iraq can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level of any country refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found here.

Iraq, District (Qadah) 1997 [Level 2; consistent boundaries, GIS] (GEO2_IQ)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 9
Decimals: 0
Range: 368011001-368035008

Valid cases: 0
Invalid: 0

Description

GEO2_IQ identifies the household's district (qadah) within Iraq in 1997. Districts are the second level administrative units of the country, after governorates. A GIS map (in shapefile format), corresponding to GEO2_IQ can be downloaded from the GIS Boundary files page in the IPUMS International web site.

The full set of geography variables for Iraq can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found here.

Iraq, District (Qadah) 1997 [Level 2, GIS] (GEO2_IQ1997)
File: IRQ1997-H-H

Overview

Type: Discrete
Format: numeric
Width: 6
Decimals: 0
Range: 11001-35008

Valid cases: 0
Invalid: 0

Description

GEO2_IQ1997 identifies the district (qadah) within Iraq in 1997. Districts are the second level administrative units of the country, after governorates. A GIS map (in shapefile format), corresponding to GEO2_IQ1997 can be downloaded from the GIS Boundary files page in the IPUMS International web site.

The full set of geography variables for Iraq can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level of any country refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found here.

Number of married couples in household (NCOUPLES)
File: IRQ1997-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

NCOUPLES is a constructed variable indicating the number of married/in-union couples within a household.

NCOUPLES is constructed using the IPUMS-International pointer variable SPLOC (spouse's location in the household).

Number of mothers in household (NMOTHERS)
File: IRQ1997-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

NMOTHERS is a constructed variable indicating the number of mothers -- of persons of any age -- within a household.

NMOTHERS is constructed using the IPUMS-International pointer variable MOMLOC (mother's location in the household).

Number of fathers in household (NFATHERS)
File: IRQ1997-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

NFATHERS is a constructed variable indicating the number of fathers -- of persons of any age -- within a household.

NFATHERS is constructed using the IPUMS-International pointer variable POPLOC (father's location in the household).

Country (COUNTRY)
File: IRQ1997-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	
Range: 32-894	

Description

COUNTRY gives the country from which the sample was drawn. The codes assigned to each country are those used by the UN Statistics Division and the ISO (International Organization for Standardization).

Electricity (ELECTRIC)
File: IRQ1997-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

ELECTRIC indicates whether the household had access to electricity.

Number of bedrooms (BEDROOMS)
File: IRQ1997-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

BEDROOMS indicates the number of rooms available to members of the household for sleeping.

Ownership of dwelling [general version] (OWNERSHIP)
File: IRQ1997-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

OWNERSHIP indicates whether a member of the household owned the housing unit. Households that acquired their unit with a mortgage or other lending arrangement were understood to "own" their unit even if they had not yet completed repayment. For those that did not own their housing unit, several options were possible: renting (from various types of owners), subletting, usufruct, and de facto occupation.

Ownership of dwelling [detailed version] (OWNERSHIPD)
File: IRQ1997-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	
Range: 0-999	

Description

OWNERSHIP indicates whether a member of the household owned the housing unit. Households that acquired their unit with a mortgage or other lending arrangement were understood to "own" their unit even if they had not yet completed repayment. For those that did not own their housing unit, several options were possible: renting (from various types of owners), subletting, usufruct, and de facto occupation.

Strata identifier (STRATA)
File: IRQ1997-H-H

Overview

Type: Continuous
Format: numeric
Width: 12
Decimals: 0

Valid cases: 0
Invalid: 0

Description

This variable is the strata identifier for the sample. The STRATA variable provides information about the sample design that can be used to improve estimation.

Person number (PERNUM)
File: IRQ1997-P-H

Overview	

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

PERNUM numbers all persons within each household consecutively (starting with "1" for the first person record of each household). When combined with SAMPLE and SERIAL, PERNUM uniquely identifies each person in the IPUMS-International database.

Mother's location in household (MOMLOC)
File: IRQ1997-P-H

Overview	

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

MOMLOC is a constructed variable that indicates whether or not the person's mother lived in the same household and, if so, gives the person number of the mother (see PERNUM). MOMLOC makes it easy for researchers to link the characteristics of children and their (probable) mothers.

The method by which probable child-mother links are identified is described in PARRULE.

The general design of MOMLOC and other constructed variables follows the methods developed for IPUMS-USA "Family Interrelationships," but the details vary significantly.

Note: MOMLOC identifies social relationships (such as stepmother and adopted mother) as well as biological relationships. The variable STEPMOM is designed to identify some of these social relationships.

Father's location in household (POPLOC)
File: IRQ1997-P-H

Overview	

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

POPLOC is a constructed variable that indicates whether or not the person's father lived in the same household and, if so, gives the person number of the father (see PERNUM). POPLOC makes it easy for researchers to link the characteristics of children and their (probable) fathers.

The method by which probable child-father links are identified is described in PARRULE.

The general design of POPLOC and other constructed variables follows the methods developed for IPUMS-USA "Family Interrelationships," but the details vary significantly.

Note: POPLOC identifies social relationships (such as stepfather and adopted father) as well as biological relationships. The variable STEPPOP is designed to identify some of these social relationships.

Spouse's location in household (SPLOC)
File: IRQ1997-P-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

SPLOC is a constructed variable that indicates whether or not the person's spouse lived in the same household and, if so, gives the person number (PERNUM) of the spouse. SPLOC makes it easy for researchers to link the characteristics of (probable) spouses.

The method by which probable spouse-spouse links are identified is described in SPRULE.

The general design of SPLOC and other constructed variables is modeled on the methods developed for IPUMS-USA "Family Interrelationships", but the details vary significantly.

Rule for linking parent (PARRULE)
File: IRQ1997-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-52

Valid cases: 0
Invalid: 0

Description

PARRULE describes the criteria by which the IPUMS-International variables MOMLOC and POPLOC linked the person to a probable mother and/or father.

IPUMS-International establishes child-parent links according to five basic rules, and PARRULE gives the number of the rule that applied to the link in question. A link to any parent automatically generates a second link to that parent's spouse or partner, so only one rule is needed to describe both MOMLOC and POPLOC.

The design of the interrelationship variables is described in this paper on IPUMSI family linking methodology.

Rule for linking spouse (SPRULE)
File: IRQ1997-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-6

Valid cases: 0
Invalid: 0

Description

SPRULE explains the criteria by which the IPUMS-International variable SPLOC linked the person to his/her probable spouse.

IPUMS-International establishes spouse-spouse links according to five basic rules, and SPRULE gives the number of the rule that applied to the link in question. A sixth rule identifies sample-specific linking procedures only imposed in selected instances.

The design of the interrelationship variables is described in this paper on IPUMSI family linking methodology.

Probable stepmother (STEPMOM)
File: IRQ1997-P-H

Overview	

Type: Discrete

Format: numeric

Width: 1

Decimals: 0

Range: 0-6

Valid cases: 0

Invalid: 0

Description

STEPMOM indicates whether a person's mother, as identified by MOMLOC, was most probably not the person's biological mother. Non-zero values of STEPMOM explain why it is probable that the person's mother was a step- or adopted mother. A value of 0 indicates no likely stepmother because (1) the mother identified in MOMLOC was probably the biological mother or (2) there is no mother of this person present in the household.

The codes for STEPMOM are as follows:

0 = Biological mother or no mother of this person present in household.

1 = Mother has no children borne or surviving.

2 = Child reports mother is deceased.

3 = Explicitly identified relationship (stepchild, adopted child, child of unmarried partner, stepchild/child-in-law).

4 = Mother reports no children in the home.

5 = Age difference between mother and child was less than 12 or greater than 54 years.

6 = Child exceeds known fertility of mother.

See PARRULE for a description of the linking process.

Users should note that there are many stepmothers and adopted mothers in the population that cannot be identified with information available in the censuses. Therefore, STEPMOM will always under-represent their actual number in the population.

Probable stepfather (STEPPOP)
File: IRQ1997-P-H

Overview	

Type: Discrete

Format: numeric

Width: 1

Decimals: 0

Range: 0-3

Valid cases: 0

Invalid: 0

Description

STEPPOP indicates whether a person's father, as identified by POPLOC , was most probably not the person's biological father. Non-zero values of STEPPOP explain why it is probable that the person's father was a step- or adopted father. A value of 0 indicates no likely stepfather because (1) the father identified in POPLOC was probably the biological father or (2) there is no father of this person present in the household.

The codes for STEPPOP are as follows:

0 = Biological father or no father of this person present in household.

1 = Child reports father is deceased.

2 = Explicitly identified relationship (stepchild, adopted child, child of unmarried partner; stepchild/child-in-law).

3 = Age difference between father and child was less than 12 or greater than 54 years.

See PARRULE for a description of the linking process.

Users should note that there are many stepfathers and adopted fathers in the population that cannot be identified with information available in the censuses. Therefore, STEPPOP will always under-represent their actual number in the population.

Man with more than one wife linked (POLYMAL)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-1	

Description

POLYMAL indicates if a man had more than one wife linked to him in the constructed IPUMS variable SPLOC -- Spouse's Location in Household.

The point of POLYMAL is to facilitate using SPLOC in samples that identify polygamy. Some statistical matching procedures expect to find only one matching record for each subject record.

Woman is second or higher order wife (POLY2ND)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-1	

Description

POLY2ND indicates if a woman was the second or higher order wife linked to a husband in the constructed IPUMS variable SPLOC -- Spouse's Location in Household. The variable does not suggest the actual marital order of wives, only their relative positions in the person order of the household as it was enumerated.

The point of POLY2ND is to facilitate using SPLOC in samples that identify polygamy. Some statistical matching procedures expect to find only one matching record for each subject record.

Family unit membership (FAMUNIT)
File: IRQ1997-P-H

Overview	
Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	

Description

FAMUNIT is a constructed variable indicating to which family within the household a person belongs.

All persons related to the household head receive a 1 (see RELATE). Each secondary family or secondary individual receives a higher code. For purposes of FAMUNIT, secondary families are individuals or groups of persons linked together by the IPUMS constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father).

Number of own family members in household (FAMSIZE)
File: IRQ1997-P-H

Overview

Number of own family members in household (FAMSIZE)
File: IRQ1997-P-H

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-99

Valid cases: 0
Invalid: 0

Description

FAMSIZE counts the number of the person's own family members living in the household with her/him, including the person her/himself. These include all persons related to the person by blood, adoption, or marriage as indicated by the census forms or inferred from them.

FAMSIZE is calculated from the units identified in the IPUMS constructed variable FAMUNIT (family unit membebership). The primary family is defined as all persons related to the head in the RELATE variable. Secondary families are individuals or groups of persons linked together by the IPUMS constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father).

Number of own children in household (NCHILD)
File: IRQ1997-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

NCHILD provides a count of the person's own children living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

Number of own children under age 5 in household (NCHLT5)
File: IRQ1997-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

NCHLT5 provides a count of the person's own children under age five living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

Age of eldest own child in household (ELDCH)
File: IRQ1997-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Age of eldest own child in household (ELDCH)
File: IRQ1997-P-H

Description

ELDCH gives the age of the person's oldest own child living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

ELDCH is top-coded at age 50 or older.

Age of youngest own child in household (YNGCH)
File: IRQ1997-P-H

Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

YNGCH gives the age of the person's youngest own child living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

YNGCH is top-coded at age 50 or older.

Relationship to household head [general version] (RELATE)
File: IRQ1997-P-H

Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-9	

Description

RELATE describes the relationship of the individual to the head of household (sometimes called the householder or reference person).

Relationship to household head [detailed version] (RELATED)
File: IRQ1997-P-H

Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 4	
Decimals: 0	
Range: 1000-9999	

Description

RELATE describes the relationship of the individual to the head of household (sometimes called the householder or reference person).

Age (AGE)
File: IRQ1997-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

AGE gives age in years as of the person's last birthday prior to or on the day of enumeration.

Age, grouped into intervals (AGE2)
File: IRQ1997-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-98

Valid cases: 0
Invalid: 0

Description

AGE2 gives computed years of age grouped into intervals.

Sex (SEX)
File: IRQ1997-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

SEX reports the sex (gender) of the respondent.

Marital status [general version] (MARST)
File: IRQ1997-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

[program universe for et,mz samples.

MARST describes the person's current marital status according to law or custom. Individuals who remarried should report the status relevant to their most recent marriage. Census instructions rarely explicitly limit marital status to strictly legal unions.

Note regarding universe: The lowest age at which a person can be anything but "never married" varies among samples.

Marital status [detailed version] (MARSTD)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	
Range: 0-999	

Description

[program universe for et,mz samples.

MARST describes the person's current marital status according to law or custom. Individuals who remarried should report the status relevant to their most recent marriage. Census instructions rarely explicitly limit marital status to strictly legal unions.

Note regarding universe: The lowest age at which a person can be anything but "never married" varies among samples.

Polygamous union (POLYGAM)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

POLYGAM indicates whether the respondent was in a polygamous union and, in some samples, the number of wives or the rank order of the wife.

Age at first marriage or union (AGEMARR)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

AGEMARR indicates the person's age at first marriage or consensual union.

Year of first marriage (MARRYR)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 4	
Decimals: 0	
Range: 1887-9999	

Description

MARRYR reports the year of first marriage for women.

Number of marriages or unions (MARRNUM)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

MARRNUM records the number of marital unions the respondent has ever been in.

Year of birth (BIRTHYR)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 4	
Decimals: 0	
Range: 0-9999	

Description

BIRTHYR gives the person's year of birth.

Month of birth (BIRTHMO)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 1-99	

Description

BIRTHMO indicates the person's month of birth.

Children ever born (CHBORN)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

CHBORN reports the number of children ever born to each woman of whom the question was asked. In most samples, women were to report all live births by all fathers, whether or not the child was still living.

Children surviving (CHSURV)
File: IRQ1997-P-H

Children surviving (CHSURV)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

CHSURV reports the number of children born to a woman who were still living at the time of the census.

Number of female children ever born (CHBORNF)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

CHBORNF indicates the number of female children ever born to a woman. Only live births are counted.

Number of male children ever born (CHBORNM)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

CHBORNM indicates the number of male children ever born to a woman. Only live births are counted.

Number of female children surviving (CHSURVF)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

CHSURVF indicates the number of female children ever born to a woman who were still living at the time of the census.

Number of male children surviving (CHSURVM)
File: IRQ1997-P-H

Number of male children surviving (CHSURVM)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

CHSURVM indicates the number of male children ever born to a woman who were still living at the time of the census.

Mortality status of mother (MORTMOT)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-9	

Description

MORTMOT indicates whether the person's biological mother was still living at the time of the census.

Mortality status of father (MORTFAT)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-9	

Description

MORTFAT indicates whether the person's biological father was still living.

Governorate of birth, Iraq (BPLIQ)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 11-99	

Description

BPLIQ indicates the person's governorate of birth within Iraq.

Citizenship (CITIZEN)
File: IRQ1997-P-H

Citizenship (CITIZEN)
File: IRQ1997-P-H

Overview	

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-9	

Description	

CITIZEN indicates the person's citizenship status within the country in which they were enumerated.

Country of citizenship (NATION)
File: IRQ1997-P-H

Overview	

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 5	
Decimals: 0	
Range: 0-99999	

Description	

NATION indicates the person's country of citizenship.

Language spoken, Iraq (LANGIQ)
File: IRQ1997-P-H

Overview	

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description	

This variable describes the local or foreign language spoken by the respondent. There were no instructions regarding how to report multiple languages.

Literacy (LIT)
File: IRQ1997-P-H

Overview	

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description	

LIT indicates whether or not the respondent could read and write in any language. A person is typically considered literate if he or she can both read and write. All other persons are illiterate, including those who can either read or write but cannot do both.

Educational attainment, Iraq (EDUCIQ)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

EDUCIQ indicates the highest level of schooling the person had completed at the time of the census.

Activity status (employment status) [general version] (EMPSTAT)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

EMPSTAT indicates whether or not the respondent was part of the labor force -- working or seeking work -- over a specified period of time. Depending on the sample, EMPSTAT can also convey further information.

The first digit of EMPSTAT is fully comparable, and classifies the population into three groups: employed, unemployed, and inactive. The combination of employed and unemployed yields the total labor force. The second and third digits of EMPSTAT preserve additional information available for some countries and census years but not for others.

Employment status is sometimes referred to in other sources as "activity status".

Activity status (employment status) [detailed version] (EMPSTATD)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	
Range: 0-999	

Description

EMPSTAT indicates whether or not the respondent was part of the labor force -- working or seeking work -- over a specified period of time. Depending on the sample, EMPSTAT can also convey further information.

The first digit of EMPSTAT is fully comparable, and classifies the population into three groups: employed, unemployed, and inactive. The combination of employed and unemployed yields the total labor force. Occupation, ISCO general (OCCISCO)
File: IRQ1997-P-H

Overview

Occupation, ISCO general (OCCISCO)
File: IRQ1997-P-H

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-99

Valid cases: 0
Invalid: 0

Description

OCCISCO records the person's primary occupation, coded according to the major categories in the International Standard Classification of Occupations (ISCO) scheme for 1988. For someone with more than one job, the primary occupation is typically the one in which the person had spent the most time or earned the most money.

Occupation, unrecoded (OCC)
File: IRQ1997-P-H

Overview

Type: Continuous
Format: numeric
Width: 4
Decimals: 0

Valid cases: 0
Invalid: 0

Description

OCC records the person's primary occupation, classified according to the system used by the respective national census office at the time. For someone with more than one job, the primary occupation is usually the one in which the person spent the most time or earned the most money, although this may not have been explicit in the instructions for a specific census.

To ensure confidentiality, very small occupations are recoded to a residual category indicating the persons had an occupation, but the job title is not identified. The number of cases recoded should be too small to affect analyses.

Industry, general recode (INDGEN)
File: IRQ1997-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

INDGEN recodes the industrial classifications of the various samples into twelve groups that can be fairly consistently identified across all available samples. The groupings roughly conform to the International Standard Industrial Classification (ISIC). The third digit of INDGEN retains important detail among the service industries that could not be consistently distinguished in all samples.

"Industry" refers to the activity or product of the establishment or sector in which a person worked.

Industry, unrecoded (IND)
File: IRQ1997-P-H

Overview

Type: Continuous
Format: numeric
Width: 5
Decimals: 0

Valid cases: 0
Invalid: 0

Industry, unrecoded (IND)
File: IRQ1997-P-H

Description

"Industry" refers to the activity or product of the establishment or sector in which the person worked. IND is classified according to the system used by the respective national census office at the time, and is not recoded by IPUMS-International.

Status in employment (class of worker) [general version] (CLASSWK)
File: IRQ1997-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

CLASSWK refers to the status of an economically active person with respect to his or her employment -- that is, the type of explicit or implicit contract of employment with other persons or organizations that the person has in his/her job. In general, the variable indicates whether a person was self-employed, or worked for someone else, either for pay or as an unpaid family worker. CLASSWK is related to EMPSTAT, which is used to define the universe in many samples.

Class of worker is often referred to as "status in employment" in other sources.

Status in employment (class of worker) [detailed version] (CLASSWKD)
File: IRQ1997-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Sector of employment (EMPSECT)
File: IRQ1997-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

Sector of employment (EMPSECT)
File: IRQ1997-P-H

EMPSECT indicates the economic sector in which the person was employed. Economic sector is defined in terms of ownership or control of the enterprise in which the person worked.

Full-time or part-time work (HRSFULL)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

HRSFULL indicates whether the respondent worked full-time or part-time.

Governorate of previous residence, Iraq (MIGIQ1)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-98	

Description

MIGIQ1 indicates the person's governorate of previous residence in Iraq.

Governorate of residence 10 years ago, Iraq (MIGIQ2)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-98	

Description

MIGIQ2 indicates the person's governorate of residence ten years ago in Iraq.

Blind or vision-impaired (DISBLND)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

Blind or vision-impaired (DISBLND)
File: IRQ1997-P-H

DISBLND indicates whether the person was blind or had limited vision.

Deaf or hearing-impaired (DISDEAF)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	
Description	

DISDEAF indicates whether the person was deaf or had limited hearing.

Mute or speech impaired (DISMUTE)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	
Description	

DISMUTE indicates if the person could not speak or had a significant speech impediment.

Disability affecting lower extremities (DISLOWR)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	
Description	

DISLOWR indicates whether the person lacked use of one or both legs.

Disability affecting upper extremities (DISUPPR)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	
Description	

Disability affecting upper extremities (DISUPPR)
File: IRQ1997-P-H

DISUPPR indicates whether the person lacked full use of at least one arm or hand.

Psychological disability (DISPSYC)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

DISPSYC indicates whether the person was disabled due to mental illness.

Residence status: de facto, de jure (RESIDENT)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-9	

Description

RESIDENT identifies whether an enumerated person is a household resident or a visitor and whether she or he was present at the time of enumeration. This variable is available only in samples that enumerated both de facto and de jure residents. It can be used to eliminate the double-counting of persons who were enumerated both at their permanent residence and at the residence they were visiting on census night.

De jure population: present residents and absent residents.

De facto population: present residents and visitors/non-residents.

Occupation, ISCO-1968, 3-digit (ISCO68A)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	
Range: 11-999	

Description

ISCO68A provides the 3-digit occupation code for the respondent using the ISCO-1968 occupation classification.

Person number (within household) (IQ1997A_0003)
File: IRQ1997-P-H

Overview

Person number (within household) (IQ1997A_0003)
File: IRQ1997-P-H

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-30

Valid cases: 0
Invalid: 0

Description

This variable indicates the person number of the record with the household.

Literal question

Person number (within household)

Residential status (IQ1997A_0401)
File: IRQ1997-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates the person's residential status.

Universe

All persons

Literal question

34. Residential status

[] 1 Resident present (permanent)
[] 2 Visitor present
[] 3 Absent (inside the country)
[] 4 Absent (outside the country)
[] 5 Prisoner
[] 6 Lost

Interviewer instructions

Residential status (IQ1997A_0401)
File: IRQ1997-P-H

34. The residential status:

The residential person of a household who dwells permanently in the dwelling and present on the day of the census indicates the sign (x) in the square (1) opposite to the phrase (resident present) but if the person was present temporary on the day of the census (as guest) and he has other residential place indicated by the sign (x) in the square (2) opposite to the phrase (present visitor) but if the person is absent on the census day and he is a permanent resident person from the household the sign is put in the square (3) opposite to the phrase (absent inside Iraq). If the person is absent but he is outside Iraq the sign is put in the square number (4) opposite to the phrase (absent abroad). If one of the persons of a household is a prisoner the sign is put in the square opposite to the word (prisoner) but if the person is lost the sign is put in square (6) opposite to the word (lost). The status of prisoner or lost is appointed as it is informed formally by the government. The head of the household must be permanent resident or absent and he must not be visitor present or prisoner or lost.

Note: The persons mentioned below are numerated as permanent with their household on the census day and recorded in the questionnaire with their household and indicated in the square opposite to the phrase (permanent present):

1. The census staff, numerators, office supervisors, field supervisors, drivers, etc.

2. Individuals of army, police and security forces either enjoying a rotating holiday or help or still in their military units.

3. Persons who are absent from their household on census day because of their night jobs in their health establishments, hotels, boarding sections, prisoners, monasteries and the like. For example doctors, nurses, dresser, buildings guards, civil defense, firemen, etc.

4. The absent from their household on the census day because of their night jobs, an example for that the factory workers that have night work.

[p.11]

5. The absent from their household because they work in aircrafts, trains on the census day, for example the captain and the hostess of the airplane and the train driver, etc.

6. The absent from their household because they work at sea on the census day such as merchants, sailors, the ships workers and fishermen.

7. The absent from their household because they are abroad and their arrivals to the country is expected during a week from the census day.

Note: Indicated to the students of the boarding section (this includes the residential unit that is rented by a group pf students for residence) and persons who dwells in hotels, rest house, prisoners in prisons and the like by the sign (x) in square (2) (present visitor) in the field (34) the residential status on the census day.

Relation to the head of the household (IQ1997A_0402)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 1-99	

Description

This variable indicates the person's relationship to the head of the household.

Universe

Literal question

35. Relationship to the head of the household

[] 1 Household head
[] 2 Spouse
[] 3 Son or daughter
[] 4 Daughter/son-in-law
[] 5 Grandson/granddaughter
[] 6 Parent
[] 7 Brother/sister
[] 8 Rest of relatives
[] 9 Not related

Interviewer instructions

Relation to the head of the household (IQ1997A_0402)
File: IRQ1997-P-H

35. The relation of the person with the head of the household:
Indicated the relation of the person with the head of the household (male or female) in the correct square. If she is his wife or her husband indicated by the sign (x) in the square opposite to the phrase (wife or husband) and if he is (his or her son or daughter) the sign is put in square (3) opposite to the phrase (son or daughter).
If it is son or daughter in law indicated by the sign (x) in the square (4) opposite to the phrase(son or daughter in law) but if it is grand son or daughter the sign is put in square (5) opposite to the phrase (grand son or daughter) and this is the same for the squares (6) and (7). If the relation of the person with the head of the household is a relative and is not mentioned in this field as his (grand father or grand mother) or (his cousin) the sign is put in square (8) opposite to the phrase (rest of relatives) and if the person and the head of the household are not relatives a (guest or servant) the sign is put in the square (9) opposite to the phrase (with no relation).

Sex (IQ1997A_0403)
File: IRQ1997-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Invalid: 0

Description

This variable indicates the person's gender.

Universe

All persons

Literal question

36. Sex

[] 1 Male
[] 2 Female

Interviewer instructions

36. Sex:
If the person is male indicated by the sign (x) in the square opposite to the word (male) and if it is female the sign is put in the square opposite to the word (female). The numerator has to ask the household about the sex of the person if his name can be used for both male and female.

Date of birth: month (IQ1997A_0405)
File: IRQ1997-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-99

Valid cases: 0
Invalid: 0

Description

This variable indicates the person's month of birth.

Universe

All persons

Literal question

Date of birth: month (IQ1997A_0405)
File: IRQ1997-P-H

37. Date of birth

Day ___
Month ___
Year ___

Interviewer instructions

37. The date of birth:
Recorded in this field in numbers the date of birth of the person by day, month and year. The numerator has to notice that number (19) is fixed on the field of year means thousands and hundreds. If the person was born in 1945 it is recorded beside number (19) number (45). The numerator has to regard and to work hard in collecting these data accurately especially children and the year of birth and if the name of the month is not available he has to confirm the year of birth only. He does not have to mention the age in years but only does the year of birth. To ensure the accuracy of data he has to go back to the documents available to fix the data of birth and it depends first on the birth certificate then the identification card and if it is not available he depends on army service certificate or nationality certificate or passport and if all these documents are not the same and there is some difference in them the numerator has to estimate the year of birth on the basis of the person appearance and the rest person of the household opinion and to connect the year of birth with national, religious and historical events and the ages of the rest persons of a household.
[p.12]
Note: If the date of birth in the identification card includes (1/7) in day and month the numerator has to ask the person about the real date of his birth although the day and month (1/7) is available in his identification card. If it is obvious that the person really doesn't know the day and month of his birth the numerator doesn't have to record that and to record the year of birth only.

Year of birth (IQ1997A_0406)

37. Date of birth

Day ___
Month ___
Year ___

Interviewer instructions

Year of birth (IQ1997A_0406)
File: IRQ1997-P-H

37. The date of birth:
Recorded in this field in numbers the date of birth of the person by day, month and year. The numerator has to notice that number (19) is fixed on the field of year means thousands and hundreds. If the person was born in 1945 it is recorded beside number (19) number (45). The numerator has to regard and to work hard in collecting these data accurately especially children and the year of birth and if the name of the month is not available he has to confirm the year of birth only. He does not have to mention the age in years but only does the year of birth. To ensure the accuracy of data he has to go back to the documents available to fix the data of birth and it depends first on the birth certificate then the identification card and if it is not available he depends on army service certificate or nationality certificate or passport and if all these documents are not the same and there is some difference in them the numerator has to estimate the year of birth on the basis of the person appearance and the rest person of the household opinion and to connect the year of birth with national, religious and historical events and the ages of the rest persons of a household.
[p.12]
Note: If the date of birth in the identification card includes (1/7) in day and month the numerator has to ask the person about the real date of his birth although the day and month (1/7) is available in his identification card. If it is obvious that the person really doesn't know the day and month of his birth the numerator doesn't have to record that and to record the year of birth only.

Interviewer instructions

Labor force status (IQ1997A_0418)
File: IRQ1997-P-H

46. Distribution of labor force:

This field is filled by all persons male or female who are (6) years old it means those who were born in 1991 and less. The purpose of this distribution is to know the economically active population and economically inactive population .

The active population includes the persons from both sexes male and female those who provide labor to produce goods and services and this includes working persons and unemployed persons seeking for work. The not active population includes housewives, students full time, persons having income but not working and others such as pensioner, those living on monthly payments from the government or charity establishments or special alliances or those who were unable to work.

1. Working

Indicated by the sign (x) in the square opposite to the word (working) for each person works daily no less than two hours and a half that means no less than (15) hours during the previous week of the census day (16/10/1997), the sign is also put for each student was working for no less than (15) hours during the previous week of the census day either that work was for his own account or employee with payment in (cash or exchange of goods or services) or unpaid. The same sign is put for each person stopped working the previous week to the census day (16/10/1997) because of sickness or rest holiday or for any reason but he is still connected with his work. It is indicated by the sign (x) in the square opposite to the word (working) for each person connected with a job and he hasn't joined it yet.

As for the housewives with part time work the sign is not put for them in this square but we follow the special instructions related to them in item (3).

2. Unemployed seeking for work

Indicated by the sign (x) in the square opposite to the phrase (Unemployed seeking for work) for each male or female doesn't work in the previous week to the census day (16/10/1997). Previously he has practiced a certain work but he is not connected with any work although he is seriously seeking for it.

Indicated in this square also each person unemployed and he had no previous work but he is able to work and seeking for it earnestly such as the newly graduate and others seeking for work for the first time. As for students who are continuing their studies not asked if they are seeking for work or not.

3. Housewife with part time work

Indicated by the sign (x) in the square opposite to the phrase (housewife with part time work) for female who work part time outside or inside the house for sale purpose such as sewing cloths, knitting manufacturing, food products, pickles, dates honey , etc. besides their housework. The numerator has to regard these cases especially agricultural holdings and livestock. Most of housewives in rural areas wok in agriculture, livestock and manufacturing home made things such as knitting mats and milk dairy besides their housework.

[p.15]

4. Student full time

If the person is student full time and continuing his studies in one of the schools, institutes or colleges and doesn't work indicated by the sign (x) in the square opposite to the phrase (Student full time) this includes persons related to work and left it for studying purposes as a scholarship, fellowship, etc.

5. Housewife

Indicated by the sign (x) in the square opposite to the word (housewife) for each female whose age is (6) years and more if she is a housewife. The house servants are not included in this field but included in the field (working).

6. Pensioner

Indicated by the sign (x) in the square opposite to the word (Pensioner) for each person from both sexes previously working and retired from work and receive a pension for his previous work. This person is either work or not during the previous week of the census. This doesn't include the persons who receive pensions of their parents (as pensioner's heirs). The special data of the fields (47-51) is recorded as (occupation, name of the establishment, employment status, and sector and work time). Each pensioner working during the previous week to the census day no less than 2 hours and a half daily that is no less than (15) hours during the week previous to the census day.

7. Have income but not working

The person that runs his living from an income of an estate or the profits of shares and bonds or from an establishment that he doesn't share in its productive work or from assistance indicated in the square opposite to the phrase (Have income but not working).

8. Others

Include not working and not seeking for work and not correspond on them the status in the previous items for example the disable person is the person who is unable to work because of age and mental or physical handicapped or he is a person who is able to work but not seeking for it never continuing his studies indicated to the square opposite to the word (others) and this square includes beggars and prisoners.

Note: The fields (47-51) are filled for each person at the age of (6) and more who work for an average daily no less than two hours and a half or no less than (15) hours during the week previous to the census day and this includes the students who are working, pensioners who are working and persons who are not employed and seeking for a work but they are previously working, housewives working part-time.

52.The main source of living:

This field is filled for all household persons, the purpose of this field is to know the main source that the person gains to cover his economical demands and depending on this source to manage his living. If the main source of living of a person is from work and gets a salary, fee, commission or profit (for baseness men) indicated opposite to the word (from work). If the main source of living of a person is retirement (all kinds of pension) indicated to this phrase. If the main source of living of a person is from a scholarship either from the government or international comities or from foreign governments according to agreements indicated to the phrase (scholarship). This square is also indicated to the students that the government pays them scholarship to manage their living without paying attention to the duration of the scholarship.

If the main source of living of a person is from assistance that is paid by the government or private establishment as the assistance that is paid for the aged, orphans and the like, indicated in the word (assistance). If the person depends on his living from estates and investment as rent, rate of interest, profits and shares, etc. Indicated the word (investment).

If the person has no source of living but depends on others in running his living, indicated the phrase (by the help of others), for example the person that take care of his wife, children, his parents and they have no other source of living, indicated by the sign (x) to each one of them in the square opposite to the phrase (by the help of others).

Note: If the person has more than one source of living during the previous six months to the census day (16/10/1997), the source that forms the greatest rate from the total other sources, for example a pensioner and has a monthly pension about (1000) ID. And at the same time he has other work and earns a monthly payment about (2000) the source (from work) is counted. But if has a monthly pension about (1000) and at the same time he has a work two months before the census and earns from that work (1250) ID. Monthly, the main source of living for that person is counted (retirement).

Vital status of parents (IQ1997A_0426)
File: IRQ1997-P-H

Overview

Type: Discrete

Format: numeric

Width: 1

Decimals: 0

Range: 1-9

Valid cases: 0

Invalid: 0

Description

This variable indicates whether the person's parents are still alive.

Literal question

Age

Interviewer instructions

37. The date of birth:
Recorded in this field in numbers the date of birth of the person by day, month and year. The numerator has to notice that number (19) is fixed on the field of year means thousands and hundreds. If the person was born in 1945 it is recorded beside number (19) number (45). The numerator has to regard and to work hard in collecting these data accurately especially children and the year of birth and if the name of the month is not available he has to confirm the year of birth only. He does not have to mention the age in years but only does the year of birth. To ensure the accuracy of data he has to go back to the documents available to fix the data of birth and it depends first on the birth certificate then the identification card and if it is not available he depends on army service certificate or nationality certificate or passport and if all these documents are not the same and there is some difference in them the numerator has to estimate the year of birth on the basis of the person appearance and the rest person of the household opinion and to connect the year of birth with national, religious and historical events and the ages of the rest persons of a household.
[p.12]
Note: If the date of birth in the identification card includes (1/7) in day and month the numerator has to ask the person about the real date of his birth although the day and month (1/7) is available in his identification card. If it is obvious that the person really doesn't know the day and month of his birth the numerator doesn't have to record that and to record the year of birth only.

Local and foreign languages spoken (IQ1997A_0450)
File: IRQ1997-P-H

Overview	

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

This variable indicates the local and foreign languages spoken by the person.

Universe

Iraqi citizens

Literal question

For Iraqis only
[Applies to questions 62-64]

64. Local and foreign languages spoken by the person ____

Interviewer instructions

64. The local and foreign languages known by the person:
Means the languages that the person can speak them properly they are either local languages Arabic, Kurdish, etc. or foreign languages English, French, etc. The person has to record the languages that he can speak properly either local or foreign languages.
As for the children who were less than five years old recorded the language of their parents if they don't speak other language if the person is deaf or dumb this field is left vacant.

Person weight (PERWT)
File: IRQ1997-P-H

Overview	

Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 8	
Decimals: 2	

Description

PERWT indicates the number of persons in the actual population represented by the person in the sample.

For the samples that are truly weighted (see the comparability discussion), PERWT must be used to yield accurate statistics for the population.

NOTE: PERWT has 2 implied decimal places. That is, the last two digits of the eight-digit variable are decimal digits, but there is no actual decimal in the data.

Disability status (DISABLED)
File: IRQ1997-P-H

Overview	

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

DISABLED indicates whether the person reported a disability of any kind.

Years residing in current locality (MIGYRS1)
File: IRQ1997-P-H

Overview	
Type: Discrete	**Valid cases:** 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

MIGYRS1 indicates how many years the person has resided in their current locality of residence.

Reason for migration (MIGCAUSE)
File: IRQ1997-P-H

Overview	
Type: Discrete	**Valid cases:** 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

MIGCAUSE indicates the reason why the person moved from their previous place of residence.

Migration status, previous residence (MIGRATEP)
File: IRQ1997-P-H

Overview	
Type: Discrete	**Valid cases:** 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

MIGRATEP indicates whether the person's most recent move (if any) was between minor administrative units, major units, or countries.

Educational attainment, international recode [general version] (EDATTAIN)
File: IRQ1997-P-H

Overview	
Type: Discrete	**Valid cases:** 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

Educational attainment, international recode [general version] (EDATTAIN)
File: IRQ1997-P-H

EDATTAIN records the person's educational attainment in terms of the level of schooling completed (degree or other milestone). The emphasis on level completed is critical: a person attending the final year of secondary education receives the code for having completed lower secondary only -- and in some samples only primary.

EDATTAIN does not necessarily reflect any particular country's definition of the various levels of schooling in terms of terminology or the number of years of schooling. EDATTAIN is an attempt to merge -- into a single, roughly comparable variable -- samples that provide degrees, ones that provide actual years of schooling, and those that have some of both. In addition to EDATTAIN, a country-specific education classification is provided which loses no information and reflects the particular educational system of that country (for example EDUCBR for Brazil, EDUCCL for Chile, and EDUCUS for the United States). As always, users can refer to the original education source variables for each sample, if they wish.

Many samples also give single years of schooling completed, recorded in YRSCHOOL. Some samples provide educational information in a form that could not be incorporated into EDATTAIN.

Educational attainment, international recode [detailed version] (EDATTAIND)
File: IRQ1997-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

EDATTAIN records the person's educational attainment in terms of the level of schooling completed (degree or other milestone). The emphasis on level completed is critical: a person attending the final year of secondary education receives the code for having completed lower secondary only -- and in some samples only primary.

EDATTAIN does not necessarily reflect any particular country's definition of the various levels of schooling in terms of terminology or the number of years of schooling. EDATTAIN is an attempt to merge -- into a single, roughly comparable variable -- samples that provide degrees, ones that provide actual years of schooling, and those that have some of both. In addition to EDATTAIN, a country-specific education classification is provided which loses no information and reflects the particular educational system of that country (for example EDUCBR for Brazil, EDUCCL for Chile, and EDUCUS for the United States). As always, users can refer to the original education source variables for each sample, if they wish.

Many samples also give single years of schooling completed, recorded in YRSCHOOL. Some samples provide educational information in a form that could not be incorporated into EDATTAIN.

Country of birth (BPLCOUNTRY)
File: IRQ1997-P-H

Overview

Type: Discrete
Format: numeric
Width: 5
Decimals: 0
Range: 0-99999

Valid cases: 0
Invalid: 0

Description

BPLCOUNTRY indicates the person's country of birth.

Number of births last year (BIRTHSLYR)
File: IRQ1997-P-H

Overview	
Type: Discrete	**Valid cases: 0**
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

BIRTHSLYR indicates whether any -- and in most cases how many -- children were born to a woman in the past twelve months.

Migration status, 10years (MIGRATE0)
File: IRQ1997-P-H

Overview	
Type: Discrete	**Valid cases: 0**
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

MIGRATE0 indicates the person's place of residence 10 years ago. The first digit records movement across major administrative divisions and countries. The second digit reports movement across minor administrative divisions, for samples in which that detail is available.

Country of residence 10 years ago (MIGCTRY0)
File: IRQ1997-P-H

Overview	
Type: Discrete	**Valid cases: 0**
Format: numeric	Invalid: 0
Width: 5	
Decimals: 0	
Range: 0-99999	

Description

MIGCTRY0 indicates the person's country of residence 10 years ago.

Persons who did not live abroad ten years prior to the census are coded as non-migrants.

Country of previous residence (MIGCTRYP)
File: IRQ1997-P-H

Overview	
Type: Discrete	**Valid cases: 0**
Format: numeric	Invalid: 0
Width: 5	
Decimals: 0	
Range: 0-99999	

Description

MIGCTRYP indicates the country of previous residence of international migrants. Persons who never lived abroad are coded to the "non-migrant" category.

Nativity status (NATIVITY)
File: IRQ1997-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description	

NATIVITY indicates whether the person was native- or foreign-born.

Year [person version] (YEARP)
File: IRQ1997-P-H

Overview	
Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 4	
Decimals: 0	

Description	

[This file is just a placeholder. See the household version of the variable.]

IPUMS sample identifier [person version] (SAMPLEP)
File: IRQ1997-P-H

Overview	
Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 9	
Decimals: 0	

Description	

[This file is just a placeholder. See the household version of the variable.]

Household serial number [person version] (SERIAL)
File: IRQ1997-P-H

Overview	
Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 10	
Decimals: 0	

Description	

[This file is just a placeholder. See the household version of the variable.]

Country [person version] (COUNTRYP)
File: IRQ1997-P-H

Overview	

Country [person version] (COUNTRYP)
File: IRQ1997-P-H

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

[This file is just a placeholder. See the household version of the variable.]

Record type [person version] (RECTYPEP)
File: IRQ1997-P-H

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 0
Invalid: 0

Description

[This file is just a placeholder. See the household version of the variable.]
