Identification

SURVEY ID NUMBER
PER_2022_FM-TUMBES-EXT_v01_M

TITLE
Flow Monitoring Tumbes (Exits) 2022

COUNTRY/ECONOMY

Name	Country code
Peru	PER

STUDY TYPE
Other Household Survey [hh/oth]

ABSTRACT
This flow monitoring seeks to analyze the population mobility's dynamics of Venezuelan refugees and migrants at the border, their protection needs and vulnerabilities. For the most part, families in transit are walking or asking for hitchhiking and crossing the borders by irregular steps, this increases protection risks on the route. The analysis of this information contributes to the design of responses to mitigate protection risks. The results should be considered as general indicators and are not statistically representative.

KIND OF DATA
Event/transaction data [evn]

UNIT OF ANALYSIS
Group and member

Version

VERSION DESCRIPTION
Version 2.1: Edited, cleaned and anonymised data.

Scope

NOTES
The scope of the survey includes:
- household and member demographics
- reasons for moving
- incidents
- coping strategies
- risks
- specific needs
- documents
