ABSTRACT

The Rome-based United Nations agencies (RBA), which include FAO, WFP, and IFAD, with support from the Government of Canada, are implementing a programme to strengthen livelihood resilience in the context of protracted crises in the Democratic Republic of the Congo (COD), Niger and Somalia. The programme will contribute to building sustainable food security and resilience to shocks and stressors among men, women, boys and girls and households, with a particular focus on vulnerable women and children. Thus, the programme focuses on: i) increasing the availability of and access to a nutritious, diverse and stable food supply; ii) increasing the quantity and quality of productive assets at the household and community level; iii) nutrition; iv) strengthening effective governance of common natural resources; and v) enhancing gender equality, through gender mainstreaming in all interventions aimed at empowering women.

Sampling

SAMPLING PROCEDURE

In COD, the programme is implemented in Rutshuru territory in North Kivu Province. Approximately 12,500 households are supported, mainly through community-based organizations. Stratified sampling proportional to the population was adopted to collect enough observations to be statistically representative at the administrative level of the territories. The territories of Masisi and Rutshuru were selected as primary sampling units (PSUs). The final sample is approximately 1,724 households that provided statistically representative information for each of the two selected territories. The total sample size was 470 households for Masisi and 535 for Rutshuru. Details of the sample are provided in Annex I of the attached report.

CONFIDENTIALITY

The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO.

ACCESS CONDITIONS

Micro datasets disseminated by FAO shall only be allowed for research and statistical purposes. Any user which requests access working for a commercial company will not be granted access to any micro dataset regardless of their specified purpose. Users requesting access to any datasets must agree to the following minimal conditions:

- The micro dataset will only be used for statistical and/or research purposes;
- Any results derived from the micro dataset will be used solely for reporting aggregated information, and not for any specific individual entities or data subjects;
- The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO;
- The micro dataset cannot be re-disseminated by users or shared with anyone other than the individuals that are granted access to the micro dataset by FAO.
