Good morning Ntate/Mme

my name is \_\_\_\_\_ and I work for Spatial Intelligence (SiQ)

This is a study run by an international team of researchers on behalf of the Ministry of Social Development of the Lesotho Government. The purpose of the study is to understand living conditions of the population of Lesotho. We will be asking you to provide some information about your community, such as infrastructure, health and education services, salaries, public programmes, and other similar questions.

Before we begin the interview, we want to make sure you understand the following information about the study:

- Your participation is entirely voluntary. You may refuse to take part in the interview, and you may stop at any time if you do not want to continue. You also have the right to skip any particular question or questions if you do not wish to answer them.
- It should take no more than half hour to complete the interview.
- You have the right to ask questions at any point before the interview, during the interview, or after the interview is completed.
- All the information that you provide us will be kept strictly confidential, and is for research purposes only. Your names will not appear in any report that comes out of this study. The information will be used for improving services only.

Shall I go ahead with the interview?
