TITLE

Resilience Index Measurement and Analysis 2019

COUNTRY/ECONOMY

Name	Country code
Myanmar	MMR

STUDY TYPE

Other Household Survey [hh/oth]

SERIES INFORMATION

This data is the baseline of the Resilience Index Measurement Analysis conducted under the Global Network Against Food Crisis (GNAFC) Partnership Programme Country Investment in Myanmar.

ABSTRACT

The baseline survey of beneficiaries targeted by project GCP/MYA/028/EC is designed to feed into the overall monitoring, evaluation, accountability and learning agenda of the Global Network against Food Crises Partnership Programme. In this regard, the baseline has short, medium and long-term objectives. In the short-term, the baseline will provide feedback on the project's theory of change – whether it is well-conceived in terms of project entry points or if some adjustments/complementary actions are to be considered. From the analysis, the programming team can ascertain if the strategy of the project will address the critical factors for resilience to food insecurity. It also serves to support the targeting strategy of the project to ensure that the criteria for selection are aligned with local profiles and realities of the implementation context.

KIND OF DATA

Sample survey data [ssd]

UNIT OF ANALYSIS

Households

Scope

NOTES

Access to basic services; assets; social safety nets; adaptive capacity; food security; shocks; household demographic characteristics.

Sampling

SAMPLING PROCEDURE

In total, 300 beneficiaries or 6% of the total 4,500 project beneficiaries were randomly selected from the beneficiary list made available by the implementing partner. The sample can be considered representative of the overall beneficiary population with a $\pm 5\%$ margin of error at a 95% confidence level.

DEVIATIONS FROM THE SAMPLE DESIGN

Due to the delay in receiving travel authorizations to the project areas, FAO M&E officers and field assistants could not travel to the sampled villages but had to administer the questionnaires from offices located in Buthidaung and Maungdaw township (the respective District headquarters) from the 13th to 18 August 2019. The selected beneficiaries were, therefore, requested to reach the interview locality with FAO covering the cost of the travel. Moreover, and due to heightened insecurity at the time of the survey, Rathedaung township was not accessible, thus reducing the possibility to interview beneficiaries from this township and further reducing the sample size.

data_collection

DATES OF DATA COLLECTION

Start	End
2019-10-29	2019-12-30

DATA COLLECTION MODE

Computer Assisted Personal Interview [capi]

data_processing

DATA EDITING

The data were collected through computer-assisted personal interviewing (CAPI) with digital tablets. The use of electronic devices reduces the duration of interviews, limits errors during the interview and data entry phases, and enables the collection of geographic information system (GIS) information at the household level. The data were transmitted daily through Kobo Toolbox, a suite of software tools for data collection in challenging environments, allowing for the use of remote data control protocols.

Access policy

CONTACTS

Name	Affiliation	Email
FAO RIMA Team	Food and Agriculture Organization	fao-rima@fao.org

CONFIDENTIALITY

The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO.

ACCESS CONDITIONS

Micro datasets disseminated by FAO shall only be allowed for research and statistical purposes. Any user which requests access working for a commercial company will not be granted access to any micro dataset regardless of their specified purpose. Users requesting access to any datasets must agree to the following minimal conditions:

- The micro dataset will only be used for statistical and/or research purposes;
- Any results derived from the micro dataset will be used solely for reporting aggregated information, and not for any specific

individual entities or data subjects;

- The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO;
- The micro dataset cannot be re-disseminated by users or shared with anyone other than the individuals that are granted access to the micro dataset by FAO.

Disclaimer and copyrights

DISCLAIMER

The user of the data acknowledges that the original collector of the data, the authorized distributor of the data, and the relevant funding agency bear no responsibility for use of the data or for interpretations or inferences based upon such uses.
