### ABSTRACT

The Country Opinion Survey in Rwanda assists the World Bank Group (WBG) in gaining a better understanding of how stakeholders in Rwanda perceive the WBG. It provides the WBG with systematic feedback from national and local governments, multilateral/bilateral agencies, media, academia, the private sector, and civil society in Rwanda on 1) their views regarding the general environment in Rwanda; 2) their overall attitudes toward the WBG in Rwanda; 3) overall impressions of the WBG's effectiveness and results, knowledge work and activities, and communication and information sharing in Rwanda; and 4) their perceptions of the WBG's future role in Rwanda.

## Sampling

### SAMPLING PROCEDURE

From May to July 2022, 643 stakeholders of the WBG in Rwanda were invited to provide their opinions on the WBG's work in the country by participating in a Country Opinion Survey. Participants were drawn from the office of the President, office of a Minister, office of a member of Parliament/Legislative body, employees of ministries/ministerial departments/implementation agencies; Project Implementation Units (PMUs) overseeing implementation of WBG projects; consultants/contractors working on WBG-supported projects/programs; local governments; independent government institutions; the judicial system; state-owned enterprises; bilateral and multilateral agencies; private sector organizations; the financial sector/private banks; private foundations; NGOs and community-based organizations; professional/trade associations; faith-based groups; youth groups; academia/research institutes/think tanks; and the media.

### RESPONSE RATE

The response rate was 61%

### WEIGHTING

The results in this year's Country Survey were compared to those in the Country Survey conducted in FY'19 (response rate was 66%, N=421). Comparing responses across Country Surveys reflect changes in attitudes over time, but also changes in respondent samples and changes to the survey instrument itself. To reduce the influence of the latter factor, only those questions with similar response scales/options were analyzed. The increased outreach to and participation among private sector in this year's survey is to be commended, but this change in overall stakeholder distribution should be kept in mind when interpreting the results of the year comparison analyses. The distribution of respondent samples from the FY'19 and FY'22 Country Surveys used in the year comparisons analyses are listed in the Methodology section of the survey report.
