## Sampling

### SAMPLING PROCEDURE

From June to July 2022, 332 stakeholders of the WBG in Ecuador were invited to provide their opinions on the WBG's work in the country by participating in a Country Opinion Survey. Participants were drawn from the office of the President, office of a Minister, office of a member of Parliament, employees of ministries/ministerial departments/ implementation agencies; Project Management Units (PMUs) overseeing implementation of WBG projects; consultants/ contractors working on WBG-supported projects/programs; local governments; independent government institutions; the judicial system; state-owned enterprises; bilateral and multilateral agencies; private sector organizations; the financial sector/private banks; private foundations; NGOs and community-based organizations; professional/trade associations; faith-based groups; youth groups; academia/research institutes/think tanks; and the media.

### RESPONSE RATE

The response rate was 61%

### WEIGHTING

The results in this year's Country Survey were compared to those in the Country Survey conducted in FY'18 (response rate was 71%, N=138). Comparing responses across Country Surveys reflect changes in attitudes over time, but also changes in respondent samples and changes to the survey instrument itself. To reduce the influence of the latter factor, only those questions with similar response scales/options were analyzed.

The distribution of respondent samples from the FY'18 and FY'22 Country Surveys used in the year comparisons analyses are listed in the table below. In FY'22, the increased outreach and subsequent numbers of survey respondents from the civil society should be kept in mind when interpreting the results of the past year comparison analyses. The original respondent samples from the FY'18 and FY'22 Country Surveys are listed in the table in the methodology section of the survey report.
