## Afrobarometer Round 8 Summary of results for Morocco, 2021

Afrobarometer, a nonprofit corporation with headquarters in Ghana, is a pan-African, nonpartisan survey research network that provides reliable data on Africans' experiences and evaluations on democracy, governance, and quality of life. Eight rounds of surveys have been completed in up to 39 countries since 1999. Round 8 surveys (2019/2021) cover 34 countries. Afrobarometer conducts face-to-face interviews in the language of the respondent's choice with nationally representative samples.

Regional coordination of national partners in about 35 countries is provided by the Ghana Center for Democratic Development (CDD-Ghana), the Institute for Justice and Reconciliation (IJR) in South Africa, and the Institute for Development Studies (IDS) at the University of Nairobi in Kenya. Michigan State University (MSU) and the University of Cape Town (UCT) provide technical support to the network.

The Afrobarometer National Partner in Morocco, Global for Survey and Consulting, interviewed a nationally representative, random, stratified probability sample of 1,200 adult Moroccans between 8 and 25 February 2021. A sample of this size yields country-level results with a margin of error of +/-3 percentage points at a 95% confidence level. Previous surveys have been conducted in Morocco in 2013, 2015, and 2018. CDD-Ghana provided technical backstopping for the survey. Technical details of the survey, including descriptions of stratification and household selection, translation languages, and related information, can be found in the survey Technical Information Form that follows.

Below is an outline of the survey findings from all the questions posed to respondents. We also present the findings by some critical demographics such as gender and place of residence (urban-rural).

Financial support for Afrobarometer Round 8 has been provided by Sweden via the Swedish International Development Cooperation Agency, the Mo Ibrahim Foundation, the Open Society Foundations, the William and Flora Hewlett Foundation, the U.S. Agency for International Development (USAID) via the U.S. Institute of Peace, the National Endowment for Democracy, Freedom House, the Embassy of the Kingdom of the Netherlands in Uganda, GIZ, and Humanity United.

**Note:** All figures in the following tables are percentages, rounded to one decimal place. (Please note that Afrobarometer's general practice in most analysis and publications is to report findings rounded to whole numbers.) Due to rounding, columns may not add up to exactly 100.0%. Readers are reminded that the sample size in Morocco of 1,200 yields a margin of sampling error of +/-3 percentage points at a 95% confidence level. A dash ("-") or blank cell indicates that there were no responses in this category. For Questions 1 through 100, weighted frequency distributions are reported.

**Note:** This presentation of findings does NOT reflect the order in which survey questions were asked during the interview. We have numbered the questions as in the questionnaire but have ordered them by topic. To see the questionnaire, please visit [www.afrobarometer.org](http://www.afrobarometer.org).
