### ABSTRACT

UNHCR monitors refugee returnees through the process of Voluntary Repatriation to Afghanistan. As part of this process, UNHCR interviews refugees willing to return to Afghanistan at the Voluntary Repatriation Centers in the country of asylum, monitors the return condition through household-level interviews at the Encashment Centers in Afghanistan and follows up on the returnees' situation in the areas of return one to six months later through phone surveys. Upon return to Afghanistan, returnees are assisted at four Encashment Centers with a cash grant to support their immediate humanitarian needs and transportation costs.

This dataset is from household interviews at the Encashment Centers. Other datasets from Encashment Centers are available for each year from 2010 to 2022. The objective of the interviews is to record details on the returnee households and family members including the amount of cash grant received.
