Thinking about the last five years, what were the three most important shocks to affect this household						

MODULE 7, SECTION 5: SHOCKS TO CROPS AND LIVESTOCK IN THE PREVIOUS 12 (13 ETHIOPIAN) MONTHS

Please think back at the last main rainy season (Kiremt). We would like to know whether any of the following events happened to you which affected the growth of your crops and the harvest. These questions should be asked to all farmers who harvest during the Meher season, AND ALL FARMERS WHO GROW PERMANENT CROPS; and any other farmers for whom these rains can be relevant.

Permanent crop growers should be asked in general about the growing season preceding the last main harvest. If the crop is continuously harvested, ask for a general assessment of the last growing season. When referring to 'Kiremt', interpret this for the permanent crop growers as the main rains. Space is provided to qualify answers if needed.

	Codes			
1. Are the Kiremt rains important for your crops?	1 YES	2 NO (If NO, GO TO Q7)	3 NOT VERY IMPORTANT
