Good afternoon / morning / evening! My name is (INTRODUCE YOURSELF). I represent Kiev International Institute of Sociology. Now we conduct a survey for the World Bank with support from the EU and in collaboration with MAPF. The survey objective is to assess how the war is affecting agricultural producers and to identify ways in which the farmers like you could be most effectively supported to deal with this atrocity. The findings from the survey will provide important information to the Government for developing policies and programs to support the agricultural sector.

All survey participants have been selected using scientific procedure of random sampling.

All the information that you provide is strictly confidential. It will only be used for research purposes and not be shared with any third parties. Your responses in no way will be connected to your name, and the results will be used in generalized mode only. Survey data will be safely stored in an encrypted format and will be destroyed after its completion.

As part of your participation, we will collect certain personal information about you and your family members, including: name, age, and gender. The survey will take about 30-40 minutes of your time.

You may be contacted in future by a survey firm for the sole purpose of a future research. If you have any questions or concerns about the research or your participation, please contact KIIS at contact on our web-site.

Do you consent to take part in the survey?
