TITLE
Data in Emergencies Monitoring Household Survey 2022

SUBTITLE
Round 4

COUNTRY/ECONOMY

Name	Country code
Mali	MLI

STUDY TYPE
Agricultural Survey [ag/oth]

ABSTRACT
The FAO has developed a monitoring system in 26 food crisis countries to better understand the impacts of various shocks on agricultural livelihoods, food security and local value chains. The Monitoring System consists of primary data collected from households on a periodic basis (more or less every four months, depending on seasonality). Data was collected through a telephone survey in the following eight regions: Gao, Kayes, Koulikoro, Ménaka, Mopti, Ségou, Sikasso and Timbuktu. Between 217 and 225 households were sampled per region, equalling 1796 households interviewed across all regions. Weights were applied based on population size, the percentage of agricultural households, the "level of education" variable, and the wealth indicator "access to toilets".

KIND OF DATA
Sample survey data [ssd]

UNIT OF ANALYSIS
Households

Scope

NOTES
The description of the survey covered information related to the following:

HOUSEHOLD: household information.
INCOME SOURCES, SHOCKS: income changes, shocks experienced by households.
CROP PRODUCTION: crops planted, area planted, area harvested, crop production difficulties.
CROP MARKETING: crop sale difficulties, crop sale price.
LIVESTOCK PRODUCTION: types of livestock present on holding, number of livestock, livestock production difficulties.
LIVESTOCK MARKETING: livestock sale, livestock sale difficulties, livestock sale price.
FISHERIES PRODUCTION: fish activity, comparison of fish production.
FISHERIES MARKETING: fish sale, fish sale difficulties, fish sale price.
FOOD SECURITY AND CONSUMPTION: food consumption, food utilization, comping strategies.
NEEDS ASSISTANCE: open questions on the needs for assistance.

Sampling

SAMPLING PROCEDURE
Statistical representativeness at administative level 1 (province level). Data was collected through a telephone survey in the following eight regions: Gao, Kayes, Koulikoro, Ménaka, Mopti, Ségou, Sikasso and Timbuktu. Between 217 and 225 households were sampled per region, equaling 1796 households interviewed across all regions.

WEIGHTING
Weights were applied based on population size, the percentage of agricultural households, the "level of education" variable, and the wealth indicator "access to toilets".

CONFIDENTIALITY

The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO

ACCESS CONDITIONS

Micro datasets disseminated by FAO shall only be allowed for research and statistical purposes. Any user which requests access working for a commercial company will not be granted access to any micro dataset regardless of their specified purpose. Users requesting access to any datasets must agree to the following minimal conditions:
- The micro dataset will only be used for statistical and/or research purposes;
- Any results derived from the micro dataset will be used solely for reporting aggregated information, and not for any specific individual entities or data subjects;
- The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO;
- The micro dataset cannot be re-disseminated by users or shared with anyone other than the individuals that are granted access to the micro dataset by FAO.

CITATION REQUIREMENTS

The use of the dataset should be referenced in any publication, using the following citation:

FAO. 2023. Data in Emergencies Monitoring Household Survey - Mali, Round 4, 2022. data-in-emergencies.fao.org. Dataset downloaded from microdata.fao.org.

Disclaimer and copyrights

DISCLAIMER

The user of the data acknowledges that the original collector of the data, the authorized distributor of the data, and the relevant funding agency bear no responsibility for use of the data or for interpretations or inferences based upon such uses
