## Identification

SURVEY ID NUMBER

BGD\_2022\_COVIDIE\_v02\_M

TITLE

The Effect of the COVID-19 Pandemic on Children’s Development and Nutritional Status at Age 20 Months in Rural Bangladesh, 2022

ABBREVIATION OR ACRONYM

COVIDIE 2022

COUNTRY/ECONOMY

Name	Country code
Bangladesh	BGD

STUDY TYPE

1-2-3 Survey, phase 2 [hh/123-2]

ABSTRACT

This dataset, in combination with third-party data, was used to estimate the impact of the COVID-19 pandemic on the cognitive, language, and motor development, behavior, and growth among toddlers in rural Bangladesh. The study compared repeated cross-sectional surveys of children living in the same villages. The first survey (third party data) included 20-month-old children in 2019 and 2020 (unexposed group). The second survey (this dataset) took place in a random subset of 50 of the same villages in 2022 among 20-month-old children, who had experienced pandemic-related lockdowns from approximately mid-gestation through their first year (exposed group). Both surveys used similar inclusion criteria and the same developmental assessments (Bayley’s Scales of Infant and Toddler Development), behavior observations, and field protocols.

KIND OF DATA

Sample survey data [ssd]

UNIT OF ANALYSIS

Child

## Version

VERSION DESCRIPTION

Version 16: Edited, anonymized dataset for public distribution.

VERSION DATE

2024-09-03

VERSION NOTES

This version of the data contains only the information for 2022 (post-COVID) recollection.

## Coverage

GEOGRAPHIC COVERAGE

The survey covered 112 villages in Bangladesh

## Producers and sponsors

PRIMARY INVESTIGATORS

Name	Affiliation

SM Mulk Uddin Tipu	Maternal and Child Health Division, International Centre for Diarrhoeal Disease Research
Diego Parra Alvarez	World Bank
Shamima Shiraji	Maternal and Child Health Division, International Centre for Diarrhoeal Disease Research
Laura Becerra Luna	World Bank
Syed Nazmul Huda	World Bank
Norbert Schady	World Bank
Mohammed Imrul Hasan	Maternal and Child Health Division, International Centre for Diarrhoeal Disease Research

## Sampling

### SAMPLING PROCEDURE

The 2022 sample was collected from a set of 50 villages randomly sampled from all 112 villages included in an earlier iron supplementation trial (Pasricha et al, New England Journal of Medicine, DOI: 10.1056/NEJMoa2034187). Children in the target age range (20 months $\pm$ 14 days) were identified from lists provided by government health workers and house-to-house surveys. All eligible children who were 20 months $\pm$ 14 days between the 22nd of March and the 31st of May 2022 and their mothers were selected and exclusion criteria included: current febrile illness, a known inherited red-cell disorder or previous transfusion, known developmental delay, or household drinking water with iron level exceeding 1 mg per liter. One village was dropped where it was not possible to find an eligible child.

## Data collection

### DATES OF DATA COLLECTION

Start	End	Cycle
2022-03	2022-05	COVID follow up

### DATA COLLECTION MODE

Face-to-face [f2f]

## Questionnaires

### QUESTIONNAIRES

An English version of the questionnaire is provided for download.

## Access policy

### CONFIDENTIALITY

### CITATION REQUIREMENTS

Use of the dataset must be acknowledged using a citation which would include:

- the Identification of the Primary Investigator
- the title of the survey (including country, acronym and year of implementation)
- the survey reference number

- the source and date of download

Example:  
Alaka Holla (World Bank), Sally McGregor (Institute of Child Health, UCL ), Jenna Hamadani (Maternal and Child Health Division, International Centre for Diarrhoeal Disease Research), Saiful Alam Bhuiyan (Maternal and Child Health Division, International Centre for Diarrhoeal Disease Research), SM Mulk Uddin Tipu (Maternal and Child Health Division, International Centre for Diarrhoeal Disease Research), Diego Parra Alvarez (World Bank), Shamima Shiraji (Maternal and Child Health Division, International Centre for Diarrhoeal Disease Research), Laura Becerra Luna (World Bank), Syed Nazmul Huda (World Bank), Norbert Schady (World Bank), Mohammed Imrul Hasan (Maternal and Child Health Division, International Centre for Diarrhoeal Disease Research).
