

MOZ PROMOVE: Baseline Data submission README

1. Introduction

This project includes the Baseline Survey Data for the MOZ PROMOVE project for agricultural development in Mozambique. The project includes two separate Impact Evaluations (IEs). The first IE revolves around the eVoucher, a voucher that rural households can redeem with local agricultural retailers. The second IE focuses on the dissemination of agricultural knowledge among farming peers through Farmer Field Schools (FFS). The research team carried out a combined treatment randomization of the two IEs. The outcome of this randomization has been omitted from the datasets in this submission because the research is still ongoing.

2. Field Details

Enumerators in Mozambique carried out the Baseline data collection through SurveyCTO from July 9, 2021, to February 18, 2022. The data collection took place in the project provinces of Nampula and Zambezia. The enumerators collected data for four different surveys:

Survey	Number of Respondents in Sample	Number of Surveys	Refusal Rate
Household Survey		4630	
Community Leader Survey		373	
Extension Agent Survey		92	
Retailer Survey		41	

There is the household survey, with 4630 interviews, the Extension Agent Survey, with 92 interviews, the Community Leader Survey, with 373 interviews and the Retailer Survey with 41 interviews. There are no problems to be reported during the data collection.

3. Cleaning Details

All variables for the Stata datasets are labelled with the survey question number that refer to the questions in the paper versions of the surveys. The variable names in the

datasets refer to the variable names in the SurveyCTO programmed version of the surveys.

The significance of missing values in the four datasets is as follows:

Value	Significance
.r	Respondent refused to Answer
.d	Respondent does not know
.o	Respondent has other reason for not responding
.	Question does not apply to the respondent.

4. Overview of Submission Files

This submission includes four different surveys and some general project documents.

File	Description
PROMOVE Household Baseline	Household Survey Stata Data
PROMOVE Community Leader Baseline	Community Leader Survey Stata Data
PROMOVE Extension Agent Baseline	Extension Agent Survey Stata Data
PROMOVE Retailer Baseline	Retailer Survey Stata Data
DIME Moz eVoucher_CN_4Jun21.docx	eVoucher Concept Note
DIME Moz Farmer Field School CN_4Jun21	FFS Concept Note
Baseline Manual Jun21	Enumerator Manual
Baseline_Report_EN	Baseline Report in English
QRE_HH2	Paper Version of Main Household Survey
