Cambodia	KHM

STUDY TYPE  
Opinion Survey

SERIES INFORMATION

The World Bank Group Country Opinion Survey Program (COS) is an ongoing effort to systematically gauge and track the perceptions and views of the World Bank Group's clients and partners across the globe over time. The survey data provide the institution with a more in-depth understanding of stakeholders' views on issues related to the World Bank's work on the ground (how it operates, its relationships, and its knowledge) and other development-related issues. The program is overseen by the Department of External and Corporate Relations, Business Intelligence Team. This collection hosts open, accessible survey data from 29 countries collected in FY 2012 (July 2011-June 2012), 41 countries in FY 2013 (July 2012-June 2013), 42 countries in FY 2014 (July 2013-June 2014), 35 countries in FY 2015 (July 2014-June 2015), 45 countries in FY 2016 (July 2015-June 2016), 35 countries in FY 2017 (July 2016-June 2017), and 39 countries in FY 2018 (July 2017-June 2018), 42 countries in FY 2019 (July 2018-June 2019), 21 countries in FY 2020 (July 2019-June 2020), 36 countries in FY 2021 (July 2020-June 2021), 23 countries in FY 2022 (July 2021-June 2022), 31 countries in FY 2023 (July 2022-June 2023) and over 40 countries in FY2024 (July 2023-June 2024). All data will be regularly updated, and more countries will be added as data becomes available.

ABSTRACT

The Country Opinion Survey in Cambodia assists the World Bank Group (WBG) in better understanding how stakeholders in Cambodia perceive the WBG. It provides the WBG with systematic feedback from national and local governments, multilateral/bilateral agencies, media, academia, the private sector, and civil society in Cambodia on 1) their views regarding the general environment in Cambodia; 2) their overall attitudes toward the WBG in Cambodia; 3) overall impressions of the WBG's effectiveness and results, knowledge work and activities, and communication and information sharing in Cambodia; and 4) their perceptions of the WBG's future role in Cambodia.

KIND OF DATA  
Sample survey data [ssd]

UNIT OF ANALYSIS  
Stakeholders of the World Bank Group in Cambodia

## Version

## Scope

---

## NOTES

The scope of the study includes:

- Objectives
- Methodology Overview
- Overall Context
- Overall Attitudes Toward the World Bank Group
- World Bank Group's Support for Development Areas
- World Bank Group's Engagement on the Ground in Cambodia
- World Bank Group's Financial Instruments and Knowledge Work
- The Future Role of the World Bank Group in Cambodia
- Communication and Outreach
- Sample Demographics and Detailed Methodology

## Coverage

## GEOGRAPHIC COVERAGE

National

## UNIVERSE

Opinion leaders from national and local governments, multilateral/bilateral agencies, media, academia, the private sector, and civil society.

## Producers and sponsors

## PRIMARY INVESTIGATORS

Name	Affiliation
Public Opinion Research Group	World Bank Group

## FUNDING AGENCY/SPONSOR

Name	Abbreviation	Role
World Bank Group	WBG	Funder

## Sampling

## SAMPLING PROCEDURE

From February 2024 to April 2024, a total of 410 stakeholders in Cambodia and Somaliland were invited to provide their opinions on the WBG's work by participating in a Country Opinion Survey (COS). A list of potential participants was compiled by the WBG country team and the fielding agency. Participants were drawn from the Office of the President, Prime Minister, Minister, and Parliament, government institutions, local governments, bilateral and multilateral agencies, the private sector, civil society, academia, and the media. Of these stakeholders, 185 participated in the survey.

## RESPONSE RATE

The response rate was 45%.

## WEIGHTING

Comparing responses across Country Surveys reflects changes in attitudes over time and changes in respondent samples, methodology, and the survey instrument itself. To reduce the influence of the latter factor, only those questions with similar response scales/options were analyzed. This year's survey saw much greater outreach to and/or response from civil society organizations and academia but a decrease from government principals and the private sector. These differences in stakeholder composition between the two years should be considered when interpreting the results of the past-year comparison analyses.

## Data collection

### DATES OF DATA COLLECTION

Start	End
2024-02	2024-04

### DATA COLLECTION MODE

Other [oth]

### DATA COLLECTION NOTES

Respondents completed the questionnaire on paper or via an online platform.

### DATA COLLECTORS

Name	Affiliation
Nuppun Research and Consulting Co., Ltd	Independent field agency

## questionnaires

### QUESTIONNAIRES

The survey was conducted in English and Khmer languages. The English version is provided as related material.

## Access policy

### CONTACTS

Name	Affiliation	Email
