TITLE

Good Growth Plan 2023

ABBREVIATION OR ACRONYM

GGP-P 2023

COUNTRY/ECONOMY

Name	Country code
Tanzania	TZA

STUDY TYPE

Agricultural Survey [ag/oth]

ABSTRACT

Syngenta is committed to increasing crop productivity and to using limited resources such as land, water and inputs more efficiently. Since 2014, Syngenta has been measuring trends in agricultural input efficiency on a global network of real farms.

The Good Growth Plan dataset shows aggregated productivity and resource efficiency indicators by harvest year.

KIND OF DATA

Sample survey data [ssd]

UNIT OF ANALYSIS

Agricultural holdings

Scope

NOTES

Data was collected on the usage of inputs, such as crop protection products, chemical fertilizer, seeding rates, labor hours, machinery usage hours, and marketable crop yield on a per hectare basis.

Coverage

GEOGRAPHIC COVERAGE

National Coverage

Producers and sponsors

PRIMARY INVESTIGATORS

Name
Syngenta

Sampling

SAMPLING PROCEDURE

A. Sample design

Farms are grouped in clusters, which represent a crop grown in an area with homogenous agro- ecological conditions and include comparable types of farms. The sample includes reference and benchmark farms.

B. Sample size

Sample sizes for each cluster are determined with the aim to measure statistically significant increases in crop efficiency over time. This is done based on target productivity increases and assumptions regarding the variability of farm metrics in each cluster. The smaller the expected increase, the larger the sample size needed to measure significant differences over time. Variability within clusters is assumed based on public research and expert opinion. In addition, growers are also grouped in clusters as a means of keeping variances under control, as well as distinguishing between growers in terms of crop size, region and technological level. A minimum sample size of 20 interviews per cluster is needed. The minimum number of reference farms is 5 of 20. The optimal number of reference farms is 10 of 20 (balanced sample).

WEIGHTING

No weighting.

Data collection

DATES OF DATA COLLECTION

CONFIDENTIALITY

The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO

ACCESS CONDITIONS

Micro datasets disseminated by FAO shall only be allowed for research and statistical purposes. Any user which requests access working for a commercial company will not be granted access to any micro dataset regardless of their specified purpose. Users requesting access to any datasets must agree to the following minimal conditions:

- The micro dataset will only be used for statistical and/or research purposes;
- Any results derived from the micro dataset will be used solely for reporting aggregated information, and not for any specific individual entities or data subjects;
- The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO;
- The micro dataset cannot be re-disseminated by users or shared with anyone other than the individuals that are granted access to the micro dataset by FAO.

CITATION REQUIREMENTS

The Good Growth Plan Progress Data - Productivity 2022-2023. Dataset downloaded from <https://microdata.fao.org>.

V8	fulltime	Onboarding Famer Basics Are you a full-time or part-time farmer?	
V9	crop	Onboarding Famer Basics Select the crop you are surveying	
V10	member	Onboarding Famer Basics Are you a member of a producer group, association or cooperative for ?	
V11	crop_size_unit	Screening Famer Basics Do you measure your land in acres or in hectares?	
V12	crop_size	Screening Famer Basics How many acres have you planted the crop?	
V13	crop_program	Screening Famer Basics Did you receive any crop program for your to implement this season?	
V14	program_from	Screening Famer Basics From whom did you receive the crop program or recommendations?	
V15	follow_recommendation	Screening Famer Basics Can you please indicate whether you will follow the recommended crop program or recommendations this season?	
V16	finance	Screening Famer Basics Do you use any finance schemes to fund your farming activities?	
V17	sustainable_practice	Screening Farm Characteristics How familiar are you with sustainable agricultural practices?	
V18	erosion_water	Screening Environment Do you have signs of soil erosion by water on your farm?	
V19	erosion_wind	Screening Environment Do you have signs of soil erosion by wind on your farm?	
V20	cover_crop	Screening Environment Have you started growing a cover crop to manage soil health in the past 20 years on the growing area(s) for ?	
V21	soil_type	Screening Environment What is the soil type of growing area?	
V22	soil_test	Screening Environment Have you ever sampled your soil for nutrient testing on texture and other soil parameters?	
V23	soil_test_time	Screening Environment If you have analyzed your soil, when was the last time you did execute this?	
V24	intercropping	Screening Behavior Do you practice intercropping (growing multiple crops on the same growing area in the same season) on each growing area for ?	
V25	intercrop_crops	Screening Behavior Which main crops do you intercrop on each growing area with ?	
V26	main_intercrop	Screening Behavior Which other main crops do you intercrop on each growing area with ?	
V27	rotate	Screening Behavior Do you rotate crops on each growing area for ?	
V28	rotate_crop	Screening Behavior What crops are you cultivating in rotation on each growing area for?	

ID	Name	Label	Question
V29	rotate_previous	Screening Behavior In terms of rotation, what was the previous crop cultivated on each growing area for ?	
V30	advice_from	Screening Knowledge Where else do you seek advice when deciding what and when to spray?	
V31	attended_training	Screening Knowledge Have you attended a training or farmers meeting on crop growing and/or agricultural practices in the past 2 years?	
V32	safe_use	Screening Knowledge During the training/farmers meeting, did they talk at least 15 minutes about safe-use practices related to crop protection products, fertilizers etcâ€¦?	
V33	to_learn	Screening Knowledge What else would you like to learn, to improve your farming?	
V34	label_info	Screening Knowledge Does the product label give you the information you need to get the best from the product?	
V35	empty_container	Screening Knowledge What do you do with empty container of pesticides you use in your farm?	
V36	where_help	Screening Knowledge If you have an incident with a crop protection product, do you know where to go for help?	
V37	if_accident	Screening Knowledge Has there ever been a crop protection usage accident on your farm that has impacted your health & safety or others?	
V38	accident_medical	Screening Knowledge Did the accident result in seeking a medical treatment?	
V39	product	Screening Farming Practice Could you please note down the product name of the variety that has been used?	
V40	sowing_date	Screening Farming Practice What was the sowing / transplanting date of the crop this season?	
V41	field_preparation	Screening Farming Practice When did the first field preparation start for each growing area of the field?	
V42	tomato_seedlings	Screening Farming Practice How many tomato seedlings did you plant in one acre?	
V43	seed_source	Screening Farming Practice From which source did you obtain your main seed variety?	
V44	seed_coated	Screening Farming Practice Are your seeds coated with crop protection products?	
V45	pollination	Screening Farming Practice Can you please tell us what kind of pollination applies to your main seed variety?	
V46	seed_characteristics	Screening Farming Practice According to you, what are the three most important characteristics when selecting your main seed variety?	
V47	farm_activities	Screening Farming Practice Please describe if you performed the following activities	
V48	power_machinery	Screening Farming Practice Did you use power-driven machinery for the activities?

ID	Name	Label	Question
V99	id	ID	
V100	matching_id	Pre-planting ID	
V101	soil_test	Screening Farming Practise Did you perform a soil test for each growing area of ?	
V102	fertilizer	Screening Farming Practise Did you apply any type of fertilizer?	
V103	crop_protection	Screening Farming Practise Did you apply any type of Crop protection inputs?	
V104	crop_injury	Screening Farming Practise Did you experience any crop injury after you applied the product?	
V105	postharvest_treatment	Screening Farming Practise Did you use any post harvest treatment?	
V106	yield_metric	Select yield metric (for this field surveyed):	
V107	weight_bag	Enter the weight of one bag in kg:	
V108	n_bags	Enter the number of bags harvested:	
V109	expectation	Did the yield of this field met your expectations?	
V110	yield_compare	Compared to previous year, would you say your yield per hectare has â€¦	
V111	damaged_pct	What is the percentage of harvested crop damaged at the time of harvest?	
V112	damaged_reason	Can you please indicate which main three factors contributed to this percentage of harvested crop damaged?	
V113	pest	Which pests did you encounter during storage?	
V114	own_consumption	Did you keep a part of the marketable yield for own consumption?	
V115	keep_seed	Did you keep a part of the marketable yield for having seed for the upcoming season?	
V116	spray_guide	Do you receive guidelines from buyer/exporter advisors for spraying products on your crop, as part of buyer / export program?	
V117	input_from	Where do you usually buy your Input products from?	
V118	get_products	Did you get the products you wanted to buy?	
V119	get_products_why	Why?	
V120	t1l_land_perm	What is the total land cultivated in Ha with permanent crops (including the land rented in this season)?	
V121	t1l_land_temp	What is the total land cultivated in Ha with temporary crops (including the land rented in this season)?	
V122	t1l_fallow_land	What is the total amount Ha of fallow land (land left uncropped and not dedicated for grazing this season)?	
V123	c_tree_or_seed	What was your total amount/investment cost of your farm?Trees or seeds:	
V124	c_ferti	What was your total amount/investment cost of your farm?Fertilizers:	
V125	c_pesti	What was your total amount/investment cost of your farm?Pesticides:	
V126	c_labor	What was your total amount/investment cost of your farm?Labor:

Questions and instructions

CATEGORIES

Value	Category	Cases	
Buyer or contractor		1	0.3%
Cooperative or farming association		11	2.8%
I saved the seeds myself		4	1%
Local market		71	17.8%
My social network (family, friends)		5	1.3%

Nursery		69	17.3%
Retailer, dealer or store		238	59.6%

SEED_COATED: Screening Farming Practice Are your seeds coated with crop protection products?

Data file: Tanzania_PrePlanting-Tomato

Overview

Valid: 399 Invalid: 0

Type: Discrete Width: 3 Range: - Format: character

Questions and instructions

CATEGORIES

Value	Category	Cases	
No		6	1.5%
Yes		393	98.5%

POLLINATION: Screening Farming Practice Can you please tell us what kind of pollination applies to your main seed variety?

Data file: Tanzania_PrePlanting-Tomato

Overview

Valid: 399

Type: Discrete Width: 138 Range: - Format: character

Questions and instructions

CATEGORIES

Value	Category	Cases	
Hybrid variety (controlled method of pollination, in which the pollen of two different seed varieties have been crossed = human mechanism)		159	39.8%
Open Pollinated Variety = OPV (this is when pollination of the seed happens via insects, birds, wind transmission = natural mechanism)		240	60.2%

SEED_CHARACTERISTICS: Screening Farming Practice According to you, what are the three most important characteristics when selecting your main seed variety?

Data file: Tanzania_PrePlanting-Tomato

Overview

Valid: 399

Type: Discrete Width: 149 Range: - Format: character
