## Identification

### SURVEY ID NUMBER

UZB\_2018-2024\_L2CU\_v01\_M

### TITLE

Listening to the Citizens of Uzbekistan Survey 2018-2024

### ABBREVIATION OR ACRONYM

L2CU 2018-24

### COUNTRY/ECONOMY

Name	Country code
Uzbekistan	UZB

### STUDY TYPE

Socio-Economic/Monitoring Survey [hh/sems]

### ABSTRACT

Since 2018, the Listening to the Citizens of Uzbekistan Survey (L2CU) has been implemented by the World Bank with the support of the UK Government. Around 1,500 households across the country regularly participate in the phone survey that is carried out every month. The L2CU collects information on public's perception of overall socio-economic conditions and policy reforms, migration, employment, access to public service, household income, savings, food security, and coping mechanisms. That helps to inform the Government's crucial decision-making for delivering essential social and economic reforms, implementing poverty reduction initiatives, and improving the well-being of citizens.

### KIND OF DATA

Sample survey data [ssd]

### UNIT OF ANALYSIS

- Households
- Individuals

## Version

### VERSION DESCRIPTION

Version 01: Edited, anonymized dataset for public distribution

### VERSION NOTES

The dataset includes round 1 to 74.

## Scope

### NOTES

The L2CU covered the following modules:

- Household passport and roster (since Round 1)
- Migration (since Round 1)
- Employment (since Round 1)
- Shocks (since Round 1)
- Wellbeing (since Round 1)
- Views (since Round 1)
- Incomes (since Round 1)
- Savings (since Round 1)
- Food Insecurity Experience Scale (since Round 49)

## Coverage

### GEOGRAPHIC COVERAGE

National, urban and rural

## Producers and sponsors

### PRIMARY INVESTIGATORS

Name	Affiliation
The World Bank	WB

### PRODUCERS

Name	Role
The World Bank	Collaborated in design, implementation and analysis

### FUNDING AGENCY/SPONSOR

Name	Abbreviation	Role
Effective Governance for Economic Development programme in Central Asia	EGED	Funded the survey

## Sampling

### SAMPLING PROCEDURE

The sample of the L2CU is a subsample of the 2018 baseline survey. The 2018 baseline survey was conducted face-to-face interviews with a nationally and urban/rural representative sample of 4,000 households from 200 PSU (mahallas – lowest administrative unit) in Uzbekistan. The baseline survey took the two-stage sampling approach, and the sample was stratified for all 14 regions, taking into consideration settlement type (urban and rural) within each region, except for Tashkent city which fully refers to urban area. As a result, 27 strata were formed where 1 stratum was dedicated to Tashkent city and 26 strata to 13 regions. In the first stage, 200 PSU were selected with probability proportion to the population size of 27 strata and in the second stage, 20 households are randomly selected in each PSU. In the baseline, households were asked to provide phone number of their most knowledgeable member for future contact during short phone interviews (CATI - Computer Assisted Telephone Interview).

After completion of the 2018 baseline survey, L2CU monthly interviewers began regularly calling a randomly selected panel of 1,500 households over the phone to conduct short interviews, following a set monthly schedule agreed to by the participating household. For the phone L2CU survey, 7-8 households are randomly selected in each of 200 clusters in the Baseline.

To ensure that non-response in the first round (and attrition in subsequent rounds) did not affect the required sample size for survey representativeness, households that refused to participate were replaced with other households drawn from the same PSU in the baseline data.

### WEIGHTING

In each round of L2CU Phone Survey, sampling weights from the L2CU Baseline Survey are adjusted to make the phone survey sample (i) comparable to the baseline sample, and (ii) representative at the strata level. Note that if the target of 1500 households are not reached, or more households are interviewed, sampling weights are automatically corrected when adjusting for strata population.

## DATA COLLECTION MODE

Computer Assisted Telephone Interview [cati]

## DATA COLLECTORS

Name	Abbreviation
------	--------------

Nazar Business and Technology Consulting Company

NBT

## Questionnaires

### QUESTIONNAIRES

The questionnaire was administered in local languages (i.e. Uzbek and Russian) with about varying length (about 20 minutes).

## Data Processing

### DATA EDITING

At the end of data collection, the raw dataset was cleaned by the NBT with the support of the WB team. This included formatting, and correcting results based on monitoring issues, enumerator feedback and survey changes.

## Access policy

### ACCESS CONDITIONS

Before accessing the dataset, all users must formally agree to:

- Refrain from making unauthorized copies of any files or file portions provided.
- Avoid attempting to disclose the identities of any person, establishment, or sampling unit using any method.
- Maintain utmost confidentiality regarding any inadvertent revelation of individual or establishment identities in documents, discussions, or analyses. Any such accidental identification discovered during analysis must be promptly reported to the data depositor.

### CITATION REQUIREMENTS

Use of the dataset requires proper acknowledgment, which should include:

- Identification of the Primary Investigator
- Title of the survey (including the country, acronym, and year of implementation)
- Survey reference number
- Source and the date of download

For example:

World Bank. Uzbekistan - Listening to the Citizens of Uzbekistan 2018-2024. Ref: UZB\_2018-2024\_L2CU\_v01\_M. Dataset downloaded from <http://www.microdata.worldbank.org/> on [date].

## Disclaimer and copyrights

### DISCLAIMER

The data user recognizes that the original data collector, the authorized data distributor, and the relevant funding agency are not liable for the use of the data or for any interpretations or inferences drawn from such usage.
