3. Editing

For questions 10c and 14, the zeroes are replaced by missing in order to respect the skip pattern induced by question 3 for 16 observations.
For 183 observations, the skip pattern induced by question 3 has not been respect to answer questions 14 for the different items. As a result the zeros have been replaced by missing. In addition, 5 schools indicate an amount different from 0 for question 14o that has been replaced by missing as well.
For 16 observations, the skip pattern induced by question 15 has not been respected and the following answers have thus been replaced by zeroes.
For school 7163121, answer to question 15 has been replaced by a positive answer as the following questions have been answered.
For schools 5111922, 2202921 and 2202922, answers to question following the skip pattern induced by question 15 have been replaced by missing instead of zero.
For schools 1141922 and 3080322, answers to questions 17 following the skip pattern induced by question 16 have been replaced by missing.
For schools 2202921 , 2203322, 3019922 and 3080221, answers to questions 17 following the skip pattern induced by question 16 have been replaced by missing.
For schools 3019922 and 3080221, answers to questions 27a, b and c have been replaced by missing to respect the skip pattern induced by the absence of a 10th grade classroom in the school.
