# Sampling

## Sampling Procedure

---

The study used the Kenya National Bureau of Statistics (KNBS) National Sample Survey and Evaluation Programme (NASSEP IV) sampling frame which has 69 districts as stratum comprising both urban and rural areas. The sample design for the study was multi-stage with the first stage covering the primary sampling units (PSUs) which was a sample of clusters developed during the 1999 census. The second stage was selection of households within the clusters. A re-listing of all households in sampled clusters was carried out to up-date the 1999 and also to be able to classify households into the three strata of interest in this study: international migrant households, internal migrant households, and non-migrant households. At the household level, interviews were held with the household head/spouse or other responsible adult with the requisite information about the household.

The study uses a purposive survey methodology that first selected districts with the largest concentration of international migrants, and then selected clusters also with the highest concentration of international migrants. This was done based on the information of previous household surveys and the knowledge of the administrative officers, statistical officers and cluster guides.

### Sampling Frame

At the time of the study, the available National Census was conducted in 1999. This census did not contain questions on remittances but had questions on migration. The migration question asked then was where family members were living in the last one year. This means that the census captured either those who had come back or those who had come visiting and were to return to where they migrated to. It did not distinguish clearly the migration component. Further, the census was conducted 10 years ago which meant it does not provide the current status on aspects of migration. The Kenya Integrated Household Budget Survey (KIHBS) 2005/06 and the Financial Services Deepening survey (FSD) are two surveys that have recently been conducted with an element of migration and remittances. However, the information is not adequate for the current survey. For example, the KIHBS has a question that captures issues of remittance linking them to the transfers received from abroad. Although it has about 13,000 households, only about 125 households indicated they had received such transfers. This was a very small sample compared to what was envisaged by the current study. The Financial Services Deepening survey (FSD) (2006/07) also has a question on cash transfers from abroad but all this is related to issues of access to financial services and not to issues sought in the current study. Thus, it could not be used for the current study. The KIHBS and FSD surveys were based on the KNBS NASSEP IV and although one may have thought of revisiting the households that were covered for additional information, it is against the KNBS regulations to conduct such follow-ups and the households' identities are not provided.

The Kenya National Bureau of Statistics household survey sampling frame, the National Sample Survey and Evaluation Programme (NASSEP IV), is based on the 1999 population and housing census. The objective of NASSEP IV frame was to construct a national master sampling frame of clusters of households in both rural and urban areas in Kenya using a sound sampling design. This sampling frame has a total of 1,800 clusters of which 1,260 are rural and 540 are urban as indicated in Appendix Table 1. Each cluster holds about 80 to 100 households. The framework is based on the old administrative units comprising of 69 districts in 8 Provinces. Currently, the districts have been subdivided and increased to 265 but this does not distort our sampling frame based on NASSEP IV as the new districts are carved out of the old districts.

### The Sample

This study utilized the NASSEP IV frame to select 102 clusters (5.6% of the total clusters) in 19 districts which yielded a total sample of 2,448 households assuming an average of 24 households in each cluster. The districts were selected first, then the clusters in each district and finally the households in each cluster. Households in each cluster were re-listed (updated) and grouped into three strata--international migrant, internal migrant and non-migrant households. In the selection of clusters in each district, at least one of the targeted five clusters was urban with exception of Nairobi and Mombasa which are purely urban.

The study however ended up covering 92 clusters (5.1% of the total clusters in NASSEP IV) from 17 districts. Two targeted districts--Kajiado and Baringo-- were not covered due to logistical problems. First of all, the team was expected to finalize the field by 15th December so that the analysis could begin and be on time. When the fieldwork was winding up on 22nd December, the two districts were yet to be covered. Two, the two districts have more transport challenges and the team was therefore expected to use KNBS transport facilities and more research assistants to capture the households which are more widely spread on the ground. This required adequate funding and by the time the fieldwork was winding up no funds had been received from World Bank. Third, even when the funds were received in January, the team considered that the study would be capturing households in a different consumption cycle, having just gone through the festive season. Given all these factors, this saw a total of 2,123 households covered out of 2,408 (96% of the total targeted). Of these, some households were later dropped due to a lot of missing data especially due to non response, and at the end a total of 1,942 households were cleaned up for analysis. This including 953 are urban and 989 rural drawn from 51 rural and 40 urban clusters.

### Selection of Districts

There was a particular interest in investigating households that had international migrants and which may have received

transfers from abroad. A random sample of the population would not produce adequate number of households that had received transfers or had international migration, as we learnt from the KIHBS data set. As indicated earlier, out of 13,000 households surveyed under KIHBS only 125 households receiving remittances from abroad. With this experience and information, this study selected the top nineteen districts from KIHBS (2005/07) that showed households with migration characteristics. The key factor used was that the households indicated they received cash transfers from abroad. Districts with more than one household fulfilling this criterion of having received transfers from abroad were considered. In addition, Financial Services Deepening survey (FSD) survey results were used to confirm that the selected districts had reported having received money from abroad. In addition, since this is a relatively rare phenomenon in Kenya, the selection of districts is designed such that households with the relevant characteristics have a high probability of being selected. As such those districts with a presence of cash transfers mechanisms such as M-PESA, Western Union, or Money Gram services were considered. All these information was used to update the information from KIHBS.

#### Selection of Clusters

In each district, 5 clusters were selected of which at least one cluster was an urban cluster as defined by KNBS, except for Nairobi and Mombasa which are purely urban. Some other district had more than one urban cluster selected based on their number of clusters and accessibility to rural clusters for example Garissa. The study covered 10 clusters in Nairobi and 6 in Mombasa with an attempt made to capture this across various income group levels.

In selection of the clusters, the supervisors sat down with the KNBS statistics officers, cluster guides, village elders, administrative officers (Chiefs and sub-chiefs) to map out clusters where the probability of getting an international migrant was high. Of this probabilities were very subjective as it was based on how well these people understood the composition of the households in the areas they represent. This helped to identify the five clusters targeted for study.

#### Selection of Households

The selection process involved re-listing of the households in each cluster so as to update the list of occupied households and identify the three groups of households. Each group or stratum was treated as an independent sub-frame and random sampling was used to select households in each group. The listing exercise was facilitated by the respective District Statistical Officer (DSO). An instrument was developed to capture the basic characteristics of households in terms of household headship, number of members, and whether contain international or internal migrants and number.

A total of 24 households per cluster were targeted for selection for interview making a minimum of 120 households in each district except Mombasa and Nairobi. Experience on the ground was different and this saw variations on the household selected in the sample. The factors considered included availability of international migrants and a rule that in each cluster a maximum of 10 non-migrant households were surveyed (the expected rule was 10 non-migrants, 7 local migrants and 7 international migrant). However due to the rarity of international migrants, in the sampling process, international migrants were given a priority so that in each cluster almost all were included in the sample.

In the re-listing exercise, households were assigned identification numbers. When the number of households listed in a stratum exceeds the number to be sampled, households in that stratum were selected randomly. However, the procedure results in unequal selection probabilities of households in the three strata, which needs to be kept track of through the supervisor sampling sheets.

For the identification of the respondent household and clusters, the NASSEP IV sampling frame had adequately documented facilitating identification of selected clusters and households on the ground. Each cluster had a map and a listing of the households within it. The maps indicate the location of the structures and the households. This enabled the interviewers reach the selected household.

## Deviations from Sample Design

---

At the planning stage of the survey, the aim was to select the districts purposively and the clusters and households randomly. However, from the pre-testing we realised that it was possible to end up with clusters without international migrants, which was the key target, if and the design did not allow substituting the clusters once the selection has been made. We also realised that the DSOs, village elders and administrative officers had an idea of households in their locality and could identify those with international migrants. Thus we changed the methodology of selecting the clusters.

## Response Rate

---

96.2 percent

# Questionnaires

## Overview

---

Questionnaire was designed by the World Bank; updated and contextualized by the research team School of Economics University of Nairobi

Tested in a pilot survey conducted in Nairobi

Language of design was English. Enumerators however came from the local areas covered in the survey and were trained to elicit information as contained in the questionnaire in local languages

The survey questionnaire has 7 sections. Every question is important, and should be completed as fully and accurately as possible. The goal is to collect the BEST possible information from household respondents on each and every question. All answers are to be recorded on the actual survey questionnaire. Each household member is assigned an ID and this ID remains the same throughout the questionnaire. In other words, the ID of a household member does NOT change from one section of the questionnaire to another.

### COVER SHEET

The cover sheet asks for basic information on the household, such as location of household, name of household head, village/town and enumeration area. It is very important to fill this cover sheet out correctly, so that – if some information is incorrect - the household can be located again.

### SECTION 1: HOUSEHOLD ROSTER

This section collects basic demographic data on each and every member of the household. It is VERY important that this section be completed accurately and completely.

### SECTION 2: HOUSEHOLD CONDITIONS

Section 2 collects information on household conditions and characteristics. Please interview the main person responsible for each dwelling. In this section there is only one response for each household. The Q2.1 asks for the tenure status of the dwelling whereas Q2.2 and Q2.3 ask about its construction and the material of its exterior walls. Information on cooking room and the total number of rooms are in Q2.4 and Q2.5. The last questions in this section ask about the presence of electricity and the source of drinking water for the household.

### SECTION 3: HOUSEHOLD ASSETS AND EXPENDITURE

Section 3 is VERY important because it collects information on the assets and expenditures of the household. The goal of this section is to understand the current welfare status of the household, that is, is the household rich or poor.

### SECTION 4: USE OF FINANCIAL SERVICES

Section 4 collects information on the household use of financial services. The purpose of this section is to see if households with migrants and remittances tend to use banks more often than households without migrants.

### SECTION 5: MIGRATION AND REMITTANCES FROM FORMER HOUSEHOLD MEMBERS

Section 5 collects information on internal and international migration and remittances from former household members who are currently living outside of the household. “Former household members” here means any person who used to live in the household, but is CURRENTLY living away from the household in another place within the country OR in another country. The person who is CURRENTLY living outside the household may have moved away for the purposes of work, marriage, education, or other reason.

### SECTION 6: MIGRATION AND REMITTANCES FROM NON-HOUSEHOLD MEMBERS

Section 6 collects information on internal and international remittances received from non-household members. In other words, households without migrants may well receive remittances from friends, relatives and other people who are not members of their households. Households without migrants can also receive remittances from people for the repayment of loans or debts.

### SECTION 7: RETURN MIGRANTS

Section 7 collects information on household members who used to live in another part of the country OR in another country, and have since returned to the household to live. For the purposes of this survey, these people are defined as “return migrants.” “Return migrants” here include all members of the household who used to live outside of the household for at least 3 months during the last 5 years, and have since returned to the household to live.

### DATA COLLECTION NOTES

Two levels of training were conducted for the instruments and sampling procedure. At the initial point the supervisors were trained on the questionnaire, re-listing process and selection of households. First of all, the research team in Nairobi held a one day workshop with Prof Bilsborrow and Ms. Plaza to finalise on the instruments and sampling procedures. Then the research team trained the supervisors for two days going through the re-listing instrument, the listing sheet, the selection process of households across the three groups and the field questionnaire. The training on the questionnaire reviewed the background, objectives and rationale of the household survey for the project, overview of the proposed scientific methodology for the survey, and an item-by-item familiarization with the instrument for fieldwork, contextualization of issues raised and potential responses and case studies. The training also outlined the project management structure, including reporting lines, roles and conduct of each team member, potential challenges and implications, documentation and field reports as well as relationships with respondents. Reports from the pilot study also featured.

The second level of training involved the interviewers. The first group was trained in Nairobi, by the supervisors and the research team. For the supervisors this was again a training ground for them as they were expected to train interviewers in each district they were allocated. The interviewers were trained on the questionnaire and re-listing process. In each selected district, the supervisors spent the two days training the interviewers recruited on the ground, sampling the clusters, re-listing households and sampling households. They also took the interviewers through some sort of pre-testing to ensure that they understood the questionnaire and were comfortable with the questions.

### SUPERVISION

The research team headed by a team leader provided the overall intellectual coordination for the project and in consultation with the World Bank Migration team, took final decisions on all matters relating to the project. The team leader worked with the principal researchers for day to day management of logistics and technical aspects the project. The supervisors oversaw the data gathering at the district level.

# Data Processing

## Data Editing

---

Data editing was conducted through a period of nearly three months. After data entry, the data analyst together with the team leader worked together to clean up the data and check for inconsistencies. The team also corresponded with Prof Mario Navarrete in identifying and correcting all inconsistencies in the original data.

## Other Processing

---

Data was entered in SPSS. This was done at a central point in Nairobi with a group of data analysts. Descriptive statistics were conducted at different stages in the process of data cleaning. Questionnaires were entered as they came from the field. The supervisors spent some time confirming the questionnaires against the re-listing sheet and also checking for quality of information. With the help of data analyst who selected a sample of questionnaires from each district assisted in checking for consistency in the responses and addressing any missing information.

Initially the team had one data analyst who prepared the code sheet and managed the data entry for the first bunch of questionnaires. However as the data collection picked up, more data analysts were employed to assist with data entry. With the first one hundred questionnaires entered some statistics were generated to check on the quality of information and this helped with the cleaning exercise. Similar exercise was repeated as half of the questionnaires were entered.

## Variables

ID	Name	Label	Type	Format	Question
V1	qno	HH unique ID	discrete	numeric	
V2	dqno	District questionnaire number	discrete	character	
V3	weight	HH weight	discrete	numeric	
V4	province	Province	discrete	numeric	PROVINCE
V5	district	District	discrete	numeric	District
V6	cunit	Enumeration area	discrete	numeric	Census Unit (Enumeration Area)
V7	urbrural	Primary unit urban/rural	discrete	numeric	Primary Unit
V8	migrantc	Classification of migrants	discrete	numeric	
V9	hhtype	HH type	discrete	numeric	
V10	idcode	ID code of principal respondent	discrete	numeric	ID CODE OF PRINCIPAL RESPONDENT
V11	hhmnum	HH size	contin	numeric	NUMBER OF CURRENT HOUSEHOLD MEMBERS
V12	interview	ID code of interviewer	discrete	numeric	INTERVIEWER (Name and code)
V13	date1	Date of interview	discrete	character	DATE OF INTERVIEW
V14	sname	ID code of supervisor	discrete	numeric	SUPERVISOR (Name and code)
V15	date2	Date of supervision	discrete	character	DATE
V16	q2_1	Tenure status of dwelling	discrete	numeric	What is the tenure status of this dwelling?
V17	q2_2	Type of dwelling	discrete	numeric	What type of dwelling does your household live in?
V18	q2_3	Major construction material of the exterior walls	discrete	numeric	What is the major construction material of the exterior walls?
V19	q2_4	Existence of separate room for cooking	discrete	numeric	Do you have a separate room for cooking?
V20	q2_5a	Total number of separate rooms (main house)	contin	numeric	How many separate rooms do you have in total, excluding bathrooms, corridors, and storage areas (this refers to separate living and dining rooms, bedrooms, etc.)? Main house
V21	q2_5b	Total number of separate rooms (other rooms)	contin	numeric	How many separate rooms do you have in total, excluding bathrooms, corridors, and storage areas (this refers to separate living and dining rooms, bedrooms, etc.)? Other Rooms
V22	q2_6	Have electricity	discrete	numeric	Does your household have electricity?

ID	Name	Label	Type	Format	Question
V23	q2_7	Primary source of drinking water	discrete	numeric	What is the primary source of your drinking water?
V24	q3_1_1	Own agricultural land at present	discrete	numeric	Does your household own the following asset at present? Agricultural land
V25	q3_1_2	Own non-agricultural land at present	discrete	numeric	Does your household own the following asset at present? Non-agricultural land
V26	q3_1_3	Own house at present	discrete	numeric	Does your household own the following asset at present? House
V27	q3_1_4	Own other buildings at present	discrete	numeric	Does your household own the following asset at present? Other Buildings
V28	q3_1_5	Own tuk tuk at present	discrete	numeric	Does your household own the following asset at present? Tuk Tuk
V29	q3_1_6	Own radio at present	discrete	numeric	Does your household own the following asset at present? Radio
V30	q3_1_7	Own television at present	discrete	numeric	Does your household own the following asset at present? Television
V31	q3_1_8	Own refrigerator at present	discrete	numeric	Does your household own the following asset at present? Refrigerator
V32	q3_1_9	Own air conditioners at present	discrete	numeric	Does your household own the following asset at present? Air conditioner
V33	q3_1_10	Own sound system at present	discrete	numeric	Does your household own the following asset at present? Sound system
V34	q3_1_11	Own VCR/DVD player at present	discrete	numeric	Does your household own the following asset at present? VCR/DVD player
V35	q3_1_12	Own computer at present	discrete	numeric	Does your household own the following asset at present? Computer
V36	q3_1_13	Own mobile phone at present	discrete	numeric	Does your household own the following asset at present? Cell phone / mobile phone
V37	q3_1_14	Own non-mobile telephone at present	discrete	numeric	Does your household own the following asset at present? Non-mobile telephone
V38	q3_1_15	Own bicycle at present	discrete	numeric	Does your household own the following asset at present? Bicycle
V39	q3_1_16	Own animal-drawn cart at present	discrete	numeric	Does your household own the following asset at present? Animal drawn cart
V40	q3_1_17	Own car at present	discrete	numeric	Does your household own the following asset at present? Car
V41	q3_1_18	Own motorcycle or scooter at present	discrete	numeric	Does your household own the following asset at present? Motorcycle
V42	q3_1_19	Own tractor/harvester at present	discrete	numeric	Does your household own the following asset at present? Tractor/harvester
V43	q3_1_20	Own bus at present	discrete	numeric	Does your household own the following asset at present? bus
V44	q3_1_21	Own lorry at present	discrete	numeric	Does your household own the following asset at present? lorry
V45	q3_1_22	Own truck at present	discrete	numeric	Does your household own the following asset at present? truck
V46	q3_1_23	Own boat at present	discrete	numeric	Does your household own the following asset at present? boat
V47	q3_1_24	Own canoe at present	discrete	numeric	Does your household own the following asset at present? canoe

ID	Name	Label	Type	Format	Question
V48	q3_2_1	Expenditure on food in past 1 week	contin	numeric	How much in total has your household spent on the following items in the given period? In the past one week: Food (e.g. grains, cassava, plantain, yam, pulses, fruits, vegetables, including self-consumption)
V49	q3_2_2	Expenditure on meat in past 1 week	contin	numeric	How much in total has your household spent on the following items in the given period? In the past one week: Meat (fish, chicken, red meat including self-consumption)
V50	q3_2_3	Expenditure on cooking fuels in past 1 week	contin	numeric	How much in total has your household spent on the following items in the given period? In the past one week: Cooking fuels (e.g. kerosene)
V51	q3_2_4	Expenditure on transportation in past 1 week	contin	numeric	How much in total has your household spent on the following items in the given period? In the past one week: Transportation (e.g. bus/taxi, gasoline)
V52	q3_2_5	Other expenditure in past 1 week	contin	numeric	How much in total has your household spent on the following items in the given period? In the past one week: Personal care/leisure/entertainment(e.g. cigarettes, alcohol, beauty salon)
V53	q3_2flt	Total expenditure on food items in past 1 week	contin	numeric	
V54	q3_2nflt	Total expenditure on non-food in past 1 week	contin	numeric	
V55	q3_2_6	Expenditure on clothing and footwear in past 6months	contin	numeric	How much in total has your household spent on the following items in the given period? In the past 6 months: Clothing and footwear
V56	q3_2_7	Expenditure on HH appliances in past 6months	contin	numeric	How much in total has your household spent on the following items in the given period? In the past 6 months: Household appliances (e.g. furniture, kitchen ware, refrigerators, air conditioners, bedding, carpet)
V57	q3_2_8	Expenditure on car/motorcycle/vehicle in past 6months	contin	numeric	How much in total has your household spent on the following items in the given period? In the past 6 months: Car/motorcycle/vehicle/tuk tuk
V58	q3_2_9	Expenditure on initial cost of mobile phone in past 6months	contin	numeric	How much in total has your household spent on the following items in the given period? In the past 6 months: Cell phone/mobile phone (Initial cost)
V59	q3_2_10	Expenditure on computer in past 6months	contin	numeric	How much in total has your household spent on the following items in the given period? In the past 6 months: Computer
V60	q3_2_11	Expenditure on other electronic goods in past 6months	contin	numeric	How much in total has your household spent on the following items in the given period? In the past 6 months: Other electronic goods (e.g. DVDs, TV)
V61	q3_2_12	Expenditure on productive assets in past 6months	contin	numeric	How much in total has your household spent on the following items in the given period? In the past 6 months: Productive assets (e.g. sewing machine, water pump)
V62	q3_2_13	Expenditure on farming equipment in past 6months	contin	numeric	How much in total has your household spent on the following items in the given period? In the past 6 months: Farming Equipment (e.g. trucks, tractor, ox plough, harvester, spraying machines, water pumps)
V63	q3_2_14	Expenditure on luxury goods in past 6months	contin	numeric	How much in total has your household spent on the following items in the given period? In the past 6 months: Luxury goods (Jewelry and luxury cars)
V64	q3_2_15	Expenditure on rent for housing in past 6months	contin	numeric	How much in total has your household spent on the following items in the given period? In the past 6 months: Rent for housing (imputed rent)

ID	Name	Label	Type	Format	Question
V65	q3_2_16	Expenditure on utilities in past 6months	contin	numeric	How much in total has your household spent on the following items in the given period? In the past 6 months: Payments for utilities (e.g. gas, water, electricity)
V66	q3_2_17	Expenditure on education/apprenticeship in past 6months	contin	numeric	How much in total has your household spent on the following items in the given period? In the past 6 months: Education / apprenticeship (including tuition fees, tutor fees, school uniforms, books, and supplies)
V67	q3_2_18	Expenditure on health in past 6months	contin	numeric	How much in total has your household spent on the following items in the given period? In the past 6 months: Health (doctor, fees, hospital fees, medicines, drugs)
V68	q3_2_19	Expenditure on wedding, engagement,funerals in past 6months	contin	numeric	How much in total has your household spent on the following items in the given period? In the past 6 months: Wedding/ Engagement / Funerals
V69	q3_2_20	Expenditure on setting up a business/opening a store in past 6months	contin	numeric	How much in total has your household spent on the following items in the given period? In the past 6 months: Setting up a business / Opening a store
V70	q3_2_21	Expenditure on house/land in past 6months	contin	numeric	How much in total has your household spent on the following items in the given period? In the past 6 months: House or land purchase
V71	q3_2_22	Expenditure on home improvement in past 6months	contin	numeric	How much in total has your household spent on the following items in the given period? In the past 6 months: Home improvements (e.g. roof, floor, plumbing)
V72	q3_2_23	Expenditure on mortgage and loan repayment in past 6months	contin	numeric	How much in total has your household spent on the following items in the given period? In the past 6 months: Mortgage and loan repayment
V73	q3_2_24	Other expenditure in past 6months	contin	numeric	How much in total has your household spent on the following items in the given period? In the past 6 months: Other (specify)
V74	q3_2nfl	Total expenditure on non-food in past 6months	contin	numeric	
V75	q4_1	Existence of bank account for HH member	discrete	numeric	Does anyone in your household have a bank account?
V76	q5_21tmr	Total amount of remitt. sent by migrant to HH in past 12months	contin	numeric	In the past 12 months, how much money in total has (NAME) sent to your household?
V77	q5_22_1	Amount of remitt. spent on food in past 12months	discrete	numeric	How did your household spend the money sent by (NAME) in the past 12 months? Amount (In local currency). Food.
V78	q5_22_1b	Proportion of remitt. spent on food in past 12months	contin	numeric	
V79	q5_22_2	Amount of remitt. spent on education in past 12months	contin	numeric	How did your household spend the money sent by (NAME) in the past 12 months? Amount (In local currency). Education.
V80	q5_22_2b	Proportion of remitt. spent on education in past 12months	contin	numeric	
V81	q5_22_3	Amount of remitt. spent on health in past 12months	contin	numeric	How did your household spend the money sent by (NAME) in the past 12 months? Amount (In local currency). Health.
V82	q5_22_3b	Proportion of remitt. spent on health in past 12months	contin	numeric	
V83	q5_22_4	Amount of remitt. spent on rent in past 12months	contin	numeric	How did your household spend the money sent by (NAME) in the past 12 months? Amount (In local currency). Rent (house, land).

V249	q6_16dts		contin	numeric	
V250	q7_1	Member have lived in another country/another place in country for at least 6mont	discrete	numeric	Does your household currently have a member who lived in another country or another place in this country for at least 6 months (Please copy person ID).
V251	withHHH		discrete	numeric	
V252	migdest	Migration destination	discrete	numeric	

## section1

Content	This data file contains information that has been collected using Section 1 (Household Roster) of the 2009 Migration Household Survey questionnaire.
Cases	8343
Variable(s)	19
Structure	Type: relational Keys: qno(HH unique ID), id_ind(Person ID)
Version	
Producer	
Missing Data	

## Variables

ID	Name	Label	Type	Format	Question
V253	qno	HH unique ID	discrete	numeric	
V254	id_ind	Person ID	discrete	numeric	
V255	age	Age at last birthday (years)	contin	numeric	
V256	gender	Sex	discrete	numeric	
V257	age_range	Age group	discrete	numeric	
V258	marital_st	Marital status	discrete	numeric	
V259	nameplace	Birth place (name)	discrete	character	
V260	birthpace	Birth place	discrete	numeric	
V261	q1_11	Highest tertiary diploma obtained	discrete	numeric	If (NAME) has completed Tertiary or higher education, what is the highest diploma/degree that he/ she obtained?
V262	q1_11a	Area of specialisation	discrete	character	If (NAME) has completed Tertiary or higher education, what is the highest diploma/degree that he/ she obtained?
V263	q1_12	Current work situation	discrete	numeric	What is (NAME)'s current work situation?
V264	q1_13	Current principal occupation	discrete	numeric	What is (NAME)'s current occupation?
V265	q1_13a	Profession	discrete	character	What is (NAME)'s current occupation?
V266	relationship	Relationship to HH head	discrete	numeric	
V267	religion	Religion	discrete	numeric	
V268	tribe	Tirbe	discrete	numeric	
V269	q1_9	Highest level of schooling completed	discrete	numeric	What is the highest level of schooling that (NAME) completed?
V270	Q1_10	Number of years of schooling completed	contin	numeric	How many total years of schooling has (NAME) completed in the indicated level?
V271	migdest	Migration destination	discrete	numeric	

## section4

Content	This data file contains information that has been collected using Section 4 (Household Use of Financial Services) of the 2009 Migration Household Survey questionnaire.
Cases	1896
Variable(s)	11
Structure	Type: Keys: ()
Version	
Producer	
Missing Data	

## Variables

ID	Name	Label	Type	Format	Question
V272	qno	HH unique ID	discrete	numeric	
V273	q4_1	Existence of bank account for HH member	discrete	numeric	Does anyone in your household have a bank account?
V274	q4_1_1	ID code of member with bank account	discrete	numeric	Does anyone in your household have a bank account?
V275	q4_2_1	Number of years since the first account opening	contin	numeric	How long has he/she had the bank account?
V276	q4_3_1	Purpose of opening the first bank account 1	discrete	numeric	What was the purpose of opening his/ her bank account?
V277	q4_3_1a	Purpose of opening the first bank account 2	discrete	numeric	What was the purpose of opening his/ her bank account?
V278	q4_3_1b	Purpose of opening the first bank account 3	discrete	numeric	What was the purpose of opening his/ her bank account?
V279	q4_3_1c	Purpose of opening the first bank account 4	discrete	numeric	What was the purpose of opening his/ her bank account?
V280	q4_3_1d	Purpose of opening the first bank account 5	discrete	numeric	What was the purpose of opening his/ her bank account?
V281	q4_4_1	Have an ATM or debit card	discrete	numeric	Does this person have an ATM or Debit card?
V282	q4_5_1	Ever use mobile phone to make bank transactions	discrete	numeric	Does this person ever use mobile phone to make bank transactions?

## section5

Content	This data file contains information that has been collected using Section 5 (Internal and International Migration and Remittances from Former Household Members) of the 2009 Migration Household Survey questionnaire.
Cases	2245
Variable(s)	44
Structure	Type: relational Keys: qno(HH unique ID), id_ind(Person ID)
Version	
Producer	
Missing Data	

## Variables

ID	Name	Label	Type	Format	Question
V283	qno	HH unique ID	discrete	numeric	
V284	id_ind	Person ID	discrete	numeric	
V285	q5_1	Existence of a member living outside HH (migrant)	discrete	character	Does your household currently have a member not living within the household?
V286	q5_2	Sex of migrant	discrete	numeric	What is the sex of (NAME) who is currently living outside your household?
V287	q5_3	Age of migrant	discrete	numeric	How old is (NAME) who is currently living outside your household?
V288	q5_3b	Age group	discrete	numeric	
V289	q5_4	Relationship of migrant to the head of HH	discrete	numeric	What is the relationship of (NAME) to the head of the household?
V290	q5_5	Current marital status of migrant	discrete	numeric	In what country was (NAME) born?
V291	q5_5a	Birth place of migrant	discrete	character	
V292	q5_6	Primary reason for migrant living outside HH	discrete	numeric	What is the primary reason why (NAME) is currently living outside your household?
V293	q5_7	Migrant working/looking for work	discrete	numeric	Is (NAME) who is currently living outside your household working or looking for work?
V294	q5_8_11	Current residence of migrant (local/foreign)	discrete	numeric	
V295	q5_8_111	Current residence of migrant (by locality)	discrete	numeric	
V296	q5_8a	Current residence of migrant (name)	discrete	character	
V297	q5_8b	Means of transportation for migration	discrete	numeric	
V298	q5_8c	Provider of fund for migration	discrete	numeric

## Bank account opening by HH after migrant's migration (q5\_26)

### File: Household

#### Overview

Type: Discrete  
Format: numeric  
Width: 3  
Decimals: 0  
Range: 1-999

Valid cases: 1257  
Invalid: 685

#### Literal question

Did any member of your household open a bank account after a migrant went to work outside the household?

#### Interviewer instructions

Q5.26 to Q5.28 ask about how household behavior might have changed with the receipt of remittances from former household members currently living outside of the household. Information is collected here about whether the household opened a bank account or built a dwelling after the receipt of remittances from former household members who are currently working outside of the household.

Please note that these questions are linked to questions answered before. When asking the question kick-off from the response given before. For example you do not want to ask 5.26 if previously the answer given was that the household has no member with a bank account.

## Business set up/store opened by HH after migrant's migration (q5\_27)

### File: Household

#### Overview

Type: Discrete  
Format: numeric  
Width: 3  
Decimals: 0  
Range: 1-999

Valid cases: 1251  
Invalid: 691

#### Literal question

Did your household set up a business or open a store after a migrant went to work outside the household?

#### Interviewer instructions

Q5.26 to Q5.28 ask about how household behavior might have changed with the receipt of remittances from former household members currently living outside of the household. Information is collected here about whether the household opened a bank account or built a dwelling after the receipt of remittances from former household members who are currently working outside of the household.

Please note that these questions are linked to questions answered before. When asking the question kick-off from the response given before. For example you do not want to ask 5.26 if previously the answer given was that the household has no member with a bank account.

## Dwelling built to rent / commercial uses by HH after migrant's migration (q5\_28)

### File: Household

#### Overview

Type: Discrete  
Format: numeric  
Width: 3  
Decimals: 0  
Range: 1-999

Valid cases: 1250  
Invalid: 692

#### Literal question

## Dwelling built to rent / commerical uses by HH after migrant's migration (q5\_28)

File: Household

Did your household build a dwelling to rent to others or for other commercial uses after a migrant went to work outside the household?

### Interviewer instructions

Q5.26 to Q5.28 ask about how household behavior might have changed with the receipt of remittances from former household members currently living outside of the household. Information is collected here about whether the household opened a bank account or built a dwelling after the receipt of remittances from former household members who are currently working outside of the household.

Please note that these questions are linked to questions answered before. When asking the question kick-off from the response given before. For example you do not want to ask 5.26 if previously the answer given was that the household has no member with a bank account.

## Total amount of remitt. sent by HH to migrant in past 12months (q5\_31tsm)

File: Household

Decimals: 0

Valid cases: 0  
Invalid: 1942

## Existence of transfers received from non-HH migrant (q6\_1)

File: Household

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 1-2

Valid cases: 1937  
Invalid: 5

### Literal question

In the last 12 months, did your household receive any money and/or goods from any non-household migrant members?

### Post question

If answer is 1 > Write name of each nonhousehold member.

If answer is 2 > Go to Q7.1 (q7\_1 - variable name in the dataset).

### Interviewer instructions

Q6.1 asks if the household received any money or goods from any non-household migrant person during the last 12 months. If the reply to this question is "Yes," then it is important to list each and every non-household migrant person who sent money or goods to the household.

## Total amount of remitt. by non-HH migrant to HH in past 12months (q6\_9tnhm)

File: Household

### Overview

## Total amount of remitt. by non-HH migrant to HH in past 12months (q6\_9tnhm)

File: Household

## Member have lived in another country/another place in country for at least 6mont (q7\_1)

### File: Household

#### Overview

Type: Discrete	Valid cases: 1935
Format: numeric	Invalid: 7
Width: 1	
Decimals: 0	
Range: 1-2	

#### Literal question

Does your household currently have a member who lived in another country or another place in this country for at least 6 months (Please copy person ID).

#### Post question

If None, END INTERVIEW.

#### Interviewer instructions

Q7.1 asks if the household has any person who used to live outside of the household in another part of the country OR in another country, and has since returned to the household. The reference period here is the last 5 years; in other words, any person who used to live outside of the household at any point during the last 5 years should be recorded. Please list each and every "return migrant" in this question.

Decimals: 0  
Range: 1-999

Valid cases: 7871  
Invalid: 472

### Literal question

What is (NAME)'s current work situation?

### Post question

If answer is between 4 to 12 > Skip to NEXT SECTION.

## Current principal occupation (q1\_13)

File: section1

### Overview

Type: Discrete  
Format: numeric  
Width: 3  
Decimals: 0  
Range: 1-999

Valid cases: 2466  
Invalid: 5877

### Literal question

What is (NAME)'s current occupation?

### Post question

Go to NEXT SECTION.

Indicate the profession indicated e.g. teacher and code it appropriately

### Interviewer instructions

Note that question 1.3 is implied by the response in 1.2 and you do not have to ask the question. For question 1.13 ask what occupation and then categorize appropriately.

## Profession (q1\_13a)

File: section1

### Overview

Type: Discrete  
Format: character  
Width: 40

Valid cases: 1306  
Invalid: 0

### Literal question

What is (NAME)'s current occupation?

### Post question

## Profession (q1\_13a)

### File: section1

Go to NEXT SECTION.

Indicate the profession indicated e.g. teacher and code it appropriately

## Relationship to HH head (relationship)

### File: section1

#### Overview

Type: Discrete  
Format: numeric  
Width: 3  
Decimals: 0  
Range: 1-999

Valid cases: 8197  
Invalid: 146

#### Description

Head of household: This is the most responsible/respectable member of the household who makes key decisions of the household on day to day basis and whose authority is recognized by all members of the household. It could be the father, mother or a child or any other responsible member of the household depending on the status of the household.

#### Interviewer instructions

Note that the household head is not necessary the "father" or the "mother".

## Religion (religion)

### Literal question

## Current residence of migrant (Q5\_8)

### File: section5

At present where does (NAME) live?

#### Interviewer instructions

Q5.8 to 5.14 ask various questions about each former household person who is currently living outside of the household: where they live, their marital and living status, and their level of completed schooling or education. It is important that these questions are asked about each and every person currently living outside of the household. Again remember to indicate the country they live currently. The choices given are the major destinations of migrants. If it is another country indicate.

## Migration destination (migdest)

### File: section5

#### Overview

Type: Continuous	Valid cases: 2206
Format: numeric	Invalid: 39
Width: 2	Minimum: 1
Decimals: 0	Maximum: 39
Range: 1-39	Mean: 4.4
	Standard deviation: 5.6

## Group of current residence of migrant (md2)

### File: section5

#### Overview

Type: Discrete	Valid cases: 2206
Format: numeric	Invalid: 39
Width: 1	
Decimals: 0	
Range: 1-4	

## HH unique ID (qno)

File: section6

### Overview

Type: Discrete  
Format: numeric  
Width: 4  
Decimals: 0  
Range: 2-2002

Valid cases: 279  
Invalid: 0

## Person ID (id\_ind)

File: section6

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 1-6

Valid cases: 279  
Invalid: 0

## Existence of transfers received from non-HH migrant (q6\_1)

File: section6

### Overview

Type: Discrete  
Format: character  
Width: 17

Valid cases: 234  
Invalid: 0

### Literal question

In the last 12 months, did your household receive any money and/or goods from any non-household migrant members?

### Post question

If NO, go to Q7.1.

If yes, write name of each nonhousehold member

### Interviewer instructions

Q6.1 asks if the household received any money or goods from any non-household migrant person during the last 12 months. If the reply to this question is "Yes," then it is important to list each and every non-household migrant person who sent money or goods to the household.

## Current residence of non-HH migrant (q6\_2)

File: section6

### Overview

Type: Discrete  
Format: numeric  
Width: 3  
Decimals: 0  
Range: 1-999

Valid cases: 276  
Invalid: 3

### Literal question

If yes to 6.1, where does this non-household migrant member currently live?

### Interviewer instructions

Q6.2 to 6.11 are identical in wording to questions asked in the previous section (section 5). For each question, it is important to record the responses for each and every non-household person.

## Relationship of non-HH migrant to the head of HH (q6\_3)

File: section6

### Overview

Type: Discrete  
Format: numeric  
Width: 3  
Decimals: 0  
Range: 1-999

Valid cases: 277  
Invalid: 2

### Literal question

If Yes to 6.1, what was the relationship of this nonhousehold migrant member?

### Interviewer instructions

Q6.2 to 6.11 are identical in wording to questions asked in the previous section (section 5). For each question, it is important to record the responses for each and every non-household person.

## Sex of non-HH migrant (q6\_4)

File: section6

### Overview

Type: Discrete  
Format: numeric  
Width: 3  
Decimals: 0  
Range: 1-999

Valid cases: 278  
Invalid: 1

### Literal question

If Yes to 6.1, what is the sex of this nonhousehold migrant member?

### Interviewer instructions

Q6.2 to 6.11 are identical in wording to questions asked in the previous section (section 5). For each question, it is important to record the responses for each and every non-household person.

## Highest schooling level completed of non-HH migrant (q6\_5)

File: section6

### Overview

Type: Discrete  
Format: numeric  
Width: 3  
Decimals: 0  
Range: 1-999

Valid cases: 279  
Invalid: 0

### Literal question

What is the highest level of schooling that this nonhousehold migrant member has completed?

### Interviewer instructions

Q6.2 to 6.11 are identical in wording to questions asked in the previous section (section 5). For each question, it is important to record the responses for each and every non-household person.

## Number of money transfers by non-HH migrant to HH in past 12months (q6\_6)

File: section6

### Overview

## Number of money transfers by non-HH migrant to HH in past 12months (q6\_6)

File: section6

Invalid: 777, 999

Valid cases: 250  
Invalid: 29  
Minimum: 1  
Maximum: 40  
Mean: 3.5  
Standard deviation: 4.3

### Literal question

In the past 12 months, how many times did your household receive this money?

### Interviewer instructions

Q6.2 to 6.11 are identical in wording to questions asked in the previous section (section 5). For each question, it is important to record the responses for each and every non-household person.

## Money sending chanel by non-HH migrant to HH (q6\_7)

File: section6

### Overview

Type: Discrete  
Format: numeric  
Width: 3  
Decimals: 0  
Range: 1-999

Valid cases: 249  
Invalid: 30

### Literal question

How did this non-household migrant usually send money to your household?

### Interviewer instructions

Q6.2 to 6.11 are identical in wording to questions asked in the previous section (section 5). For each question, it is important to record the responses for each and every non-household person.

## Total amount of remittances by non-HH migrant to HH in past 12months (q6\_9)

File: section6

### Overview

Type: Continuous  
Format: numeric  
Width: 7  
Decimals: 0  
Range: 0-4000000  
Invalid: 777, 888, 999

Valid cases: 230  
Invalid: 49  
Minimum: 200  
Maximum: 4000000  
Mean: 57407.8  
Standard deviation: 310423

### Literal question

In the past 12 months, how much money in total has your household received from this non-household migrant?

### Post question

Amount (in local currency)

### Interviewer instructions

Q6.2 to 6.11 are identical in wording to questions asked in the previous section (section 5). For each question, it is important to record the responses for each and every non-household person.

## Non-HH migrant sent food/goods to HH in past 12months (q6\_11)

### File: section6

#### Overview

Type: Discrete  
Format: numeric  
Width: 3  
Decimals: 0  
Range: 1-999

Valid cases: 255

#### Manual for Interviewers and Supervisors

---

Title Manual for Interviewers and Supervisors  
 Date 2009-10-01  
 Country Kenya  
 Description This is a field work guide for the household survey. The goal of this survey is to gather the best possible information on migration and remittances in Kenya. For this reason, the manual provides information to field workers who will be administering the survey on how to interact with survey households. The manual also describes and explains the various questions contained in the survey questionnaire, and how these questions relate to one another.
